The Japan Fund for Poverty Reduction (JFPR) supports disaster-related projects because disasters strike the poorest and most vulnerable the hardest through loss of life, destruction of livelihoods, and damage to properties. Disasters often wipe out any gains that may have been achieved by efforts to bring people out of poverty. Through its grant and technical assistance projects, JFPR support encompasses a wide range of disaster risk management activities such as recovery, reconstruction, mitigation, and preparedness.

BACKGROUND

Developing a skilled workforce. Young students from poorer families, as well as unemployed adults, receive technical and vocational training in construction. Mongolia is facing a shortage of skilled construction workers, and this Japan Fund for Poverty Reduction-funded capacity building program will help provide participants with better job opportunities (photo by Kevin Hamdorf).

Overview

This *Annual Report 2018* of the Japan Fund for Poverty Reduction (JFPR), covering the period from 1 January to 31 December 2018, is the 18th report on the fund. It presents the background and rationale, project implementation progress, and achievements of the JFPR.

Established in May 2000, the JFPR provides direct grant assistance to the poorest and most vulnerable groups in developing member countries (DMCs)¹ of the Asian Development Bank (ADB), while fostering long-term social and economic development.²

On 6 October 2009, the ADB Board of Directors approved the Revised Operating Framework for the JFPR,³ bringing together Japan's project grant and technical assistance (TA) support under one umbrella.

The JFPR started providing financial support to ADB's TA program for its DMCs in 2010.

This report contains general information about the two financing modalities of the JFPR—project grants and TA—and gives details about their operating performance in 2018.

Objectives

The JFPR seeks to add substantive value and development impact to ADB assistance. It does so through grants for poverty reduction and TA activities that are in line with ADB's priorities, as laid out in ADB's Strategy 2030.⁴ The efforts of the JFPR must also match and complement the broad purposes of ADB's country partnership strategies.

¹ ADB. Members. <https://www.adb.org/about/members>.

² In June 2000, the Government of Japan established a similar facility, the Japan Social Development Fund, at the World Bank. <https://www.worldbank.org/en/programs/japan-social-development-fund>.

³ ADB. 2009. *Revised Operating Framework for the Japan Fund for Poverty Reduction*. Manila.

⁴ ADB. 2018. *Strategy 2030: Achieving a Prosperous, Inclusive, Resilient, and Sustainable Asia and the Pacific*. Manila. <https://www.adb.org/sites/default/files/institutional-document/435391/strategy-2030-main-document.pdf>

The objectives defined by the JFPR for its two financing modalities are as follows:

Project grants are intended to

- (i) support well-targeted poverty reduction and social development activities that have a direct impact on the poor and on socially or economically excluded or vulnerable groups,
- (ii) stimulate the self-help capacity of the poor and vulnerable groups,
- (iii) encourage the widespread participation of stakeholders at the community level, and
- (iv) have a positive impact on DMC operations and approaches to sustainable poverty reduction.

TA projects are designed to

- (i) strengthen the capacity of executing agencies and other development partners to implement and operate projects;
- (ii) prepare and coordinate development strategies, plans, and programs, and carry out sector, policy, and issue studies;
- (iii) improve knowledge of development issues in Asia and the Pacific, and foster inclusive and environmentally sustainable growth and regional cooperation and integration among DMCs; and
- (iv) analyze, plan, and prepare development projects.

Activities

Project grants. The JFPR provides grants to finance projects that are aimed directly at reducing poverty, provide innovative and demonstrable impact, and are likely to develop into sustainable activities.

Technical assistance grants. TA projects supported by the JFPR may involve a single DMC or, in the case

of regional projects, a group of DMCs. The JFPR may finance transaction advisory services⁵ directly benefiting a project financed by ADB, or provide knowledge and support.⁶

The JFPR continues to give high priority to TA grants related to high-quality infrastructure⁷ projects that meet at least one of the following criteria: (i) resilience in the face of natural disasters, (ii) reduction in environmental burdens and social costs, (iii) economic efficiency, (iv) ensuring safety in use and operation, and (v) development of local human resources.

Processing of Grant and Technical Assistance Proposals

Besides conforming to ADB's general procedures, JFPR grant and TA proposals must comply with procedures specific to the JFPR, before receiving approval from the Government of Japan and ADB (Figure 1).

Only ADB staff can prepare grant or TA proposals. Interested proponents, including nongovernment organizations (NGOs), must therefore contact ADB staff from an ADB country office or sector division at headquarters. The project proposals are submitted to ADB's Office of Cofinancing Operations (OCO),⁸ which reviews the proposals and, if necessary, asks the ADB staff to clarify certain points, to ensure consistency with the JFPR's objectives and guidelines. After the interdepartmental review and approval by the OCO director general, all proposals that meet the JFPR's financing criteria are submitted to the Government of Japan through OCO. The Government of Japan reviews the proposals and then either approves or rejects them, or seeks further clarification before making its decision.

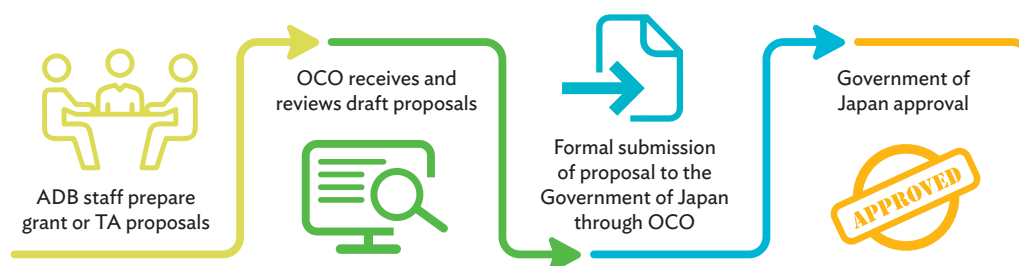

⁵ ADB. ADB Business Center. <https://www.adb.org/business/how-to/what-are-adb-s-transaction-advisory-services>.

⁶ In 2017, TA types were consolidated into two categories: (i) transaction TA, and (ii) knowledge and support TA. <https://www.adb.org/business/how-to/what-adb-technical-assistance-ta>.

⁷ As defined in the Memorandum of Understanding for Strategic Partnership for Sustainable and Inclusive Development through Promotion of Quality Infrastructure Investment in Asia and the Pacific between the Japan International Cooperation Agency and ADB, dated 17 December 2015. However, the JFPR's focus on quality infrastructure is not limited to projects covered by the memorandum of understanding.

⁸ On 1 April 2019, the Japan Fund for Poverty Reduction administration was transferred to the Sustainable Development and Climate Change Department.

Accountability and Transparency

As stated in the arrangement letter between the Government of Japan and ADB, which is the basis for the Revised Operating Framework for the JFPR (footnote 3), ADB, as trust fund administrator, has to “carry out such administration in accordance with its normal practices and standards and with the same degree of care as it uses in the administration of its own funds.”

Under the JFPR, consultants are recruited and goods are procured in accordance with ADB’s Guidelines on the Use of Consultants⁹ and Procurement Guidelines.¹⁰ The payment of JFPR expenditures conforms to ADB’s standard disbursement procedures. Financial records and accounts are audited annually by independent auditors, and the audited records and accounts are included in the JFPR annual report.

To harmonize and coordinate project proposals with the policies and programs of the Government of Japan, project officers must consult with the local embassy of Japan¹¹ and the Japan International Cooperation Agency (JICA) before submitting proposals to OCO.

The proposals are then screened on the basis of the criteria and focus areas agreed upon between ADB and the Government of Japan at the start of the year. As with all other ADB projects, JFPR project proposals must comply with ADB’s safeguard policies for resettlement, indigenous peoples, gender, and the environment, and are subject to ADB’s access to information policy,¹² which covers information disclosure and external relations.

During project implementation, ADB staff should monitor and evaluate the outputs and outcomes of JFPR activities, as they would for all other ADB-financed projects. Monitoring and evaluation are based on the design and monitoring framework agreed upon with various stakeholders (communities, local and central governments, NGOs, and private sectors) in consultations during project formulation. The results are then fed back to the DMCs’ operations, to be replicated and institutionalized.

To further promote Japanese visibility, the projects should ideally complement and have synergies with JICA projects and technical cooperation activities, and use Japanese human resources, technology, knowledge, and expertise.

¹¹ For regional projects, mission leaders must consult with the embassies of all countries mentioned in the proposal.

¹² ADB. 2018. *Access to Information Policy*. Manila. <https://www.adb.org/documents/access-information-policy>

Contributions of the Government of Japan

In May 2000, the Government of Japan made an initial contribution of ¥10.0 billion (about \$92.6 million) to the JFPR. This was followed, in March 2002, by an additional contribution of ¥7.9 billion (about \$61.1 million) and the transfer of \$90.0 million to the JFPR from the Asian Currency Crisis Support Facility. The government made 15 further contributions, including an additional ¥2.8 billion (about \$25.8 million) in 2018, bringing its total contributions to about \$814.2 million.¹³

Commitments and Financial Status

By 31 December 2018, the JFPR had committed a total of \$551.8 million for 185 grants and \$317.2 million for 257 TA projects. Appendix 1 presents the year-end audit report and financial statements for 2017 and 2018. Outstanding amounts for active projects totaled \$120.5 million, comprising \$57.8 million for 21 grants and \$62.6 million for 65 TA projects.¹⁴ By the end of 2018, about \$94.2 million was available for further commitments.¹⁵

¹³ The other contributions before 2018 were March 2003, ¥7.1 billion (about \$59.9 million); March 2004, ¥2.6 billion (about \$23.3 million); March 2005, ¥1.9 billion (about \$18.0 million); March 2006, ¥1.8 billion (about \$15.5 million); March 2009, ¥3.2 billion (about \$32.5 million); March 2010, ¥4.9 billion (about \$52.9 million); January 2011, ¥4.9 billion (about \$58.5 million); January 2012, ¥4.0 billion (about \$51.9 million); March 2012, ¥445.0 million (about \$5.4 million); January 2013, ¥4.8 billion (about \$53.8 million); January 2014, ¥4.9 billion (about \$47.0 million); January 2015, ¥4.8 billion (about \$40.3 million); January 2016, ¥4.6 billion (about \$39.3 million); and January 2017, ¥5.4 billion (about \$46.4 million).

¹⁴ Statement of Financial Position and note F of Appendix 1; Appendix 4.

¹⁵ Note G of Appendix 1.

OVERVIEW OF 2018 OPERATIONS

Improved learning environment.

The JFPR has helped prepare a project that will improve the quality of pre-primary to primary education in Bangladesh through the recruitment of more teachers, building more classrooms, reforming examinations and assessments, and enriching teaching and learning resources with digital materials, among other improvements (photo by Abir Abdullah).

Processing and Approvals

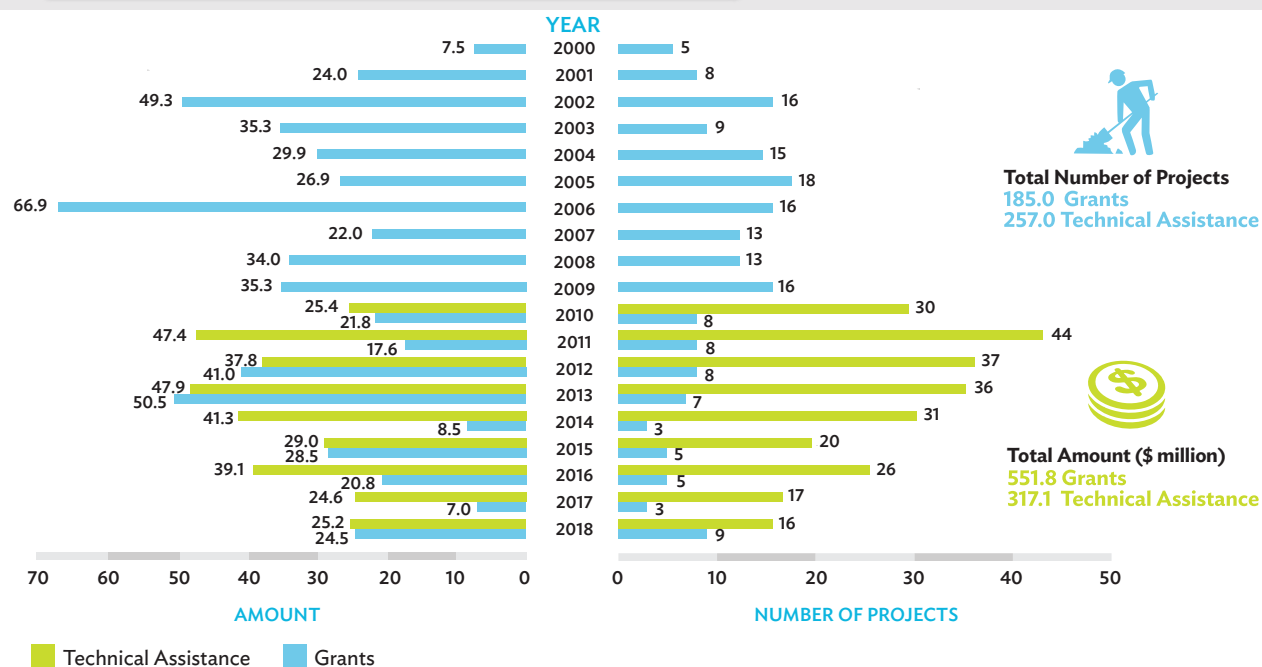

Appendix 2 lists the JFPR projects approved by ADB in 2009–2018 together with their implementation status. Figure 2 shows the number of ADB-approved JFPR projects from 2000 to 2018.

Project grants. In 2018, ADB approved nine grants worth \$24.5 million. As of 2018, Mongolia had the most number of JFPR projects, with 24, followed by Viet Nam, with 14 projects. Figure 3 shows the distribution, by country, of projects approved in 2018 and the cumulative approvals for 2000–2018.

Conserving the ecosystem. Preserving current peatlands and restoring degraded ones supports herders' livelihoods and reduce the extreme impacts of climate change. The Strategic Planning for Peatlands aims to address these and develop better livelihoods for communities dependent on or associated with peatlands (photo by Tsogtbaatar Khishigdorj).

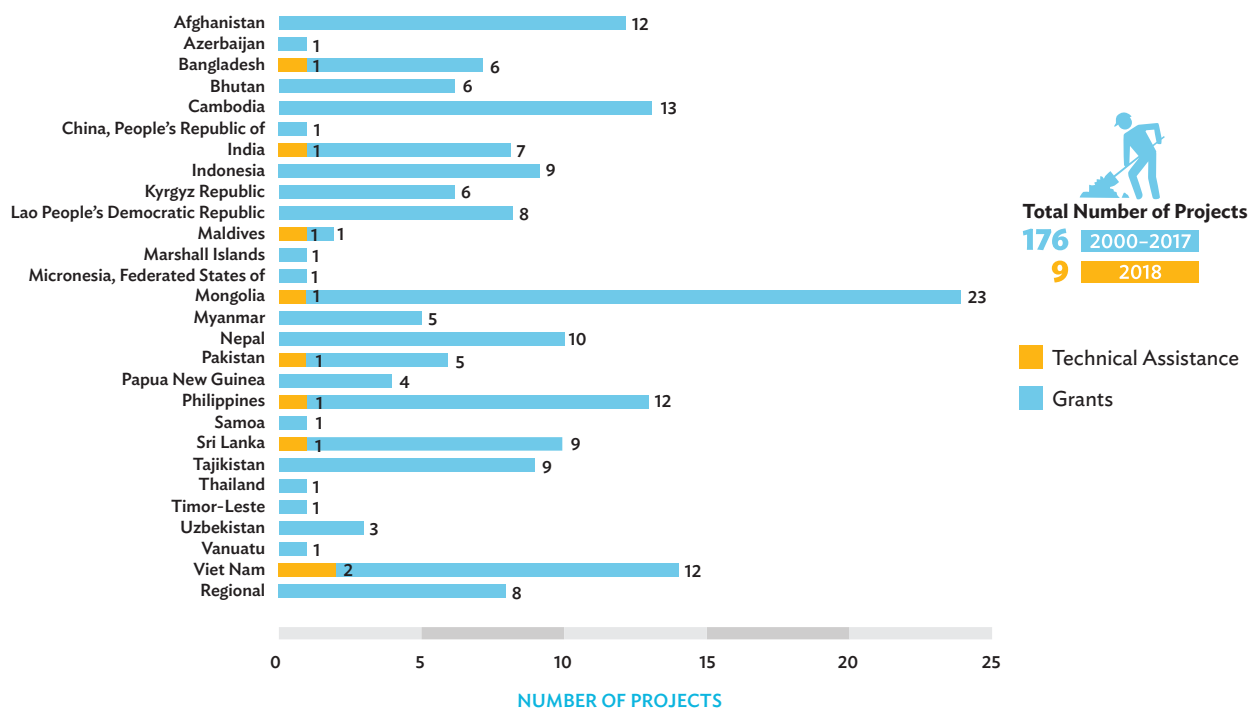

Figure 2: Number and Amount of ADB-Approved Japan Fund for Poverty Reduction Projects, 2000–2018

ADB = Asian Development Bank.

Source: ADB.

Figure 3: Number of ADB-Approved Japan Fund for Poverty Reduction Grants, by Country, 2000–2018

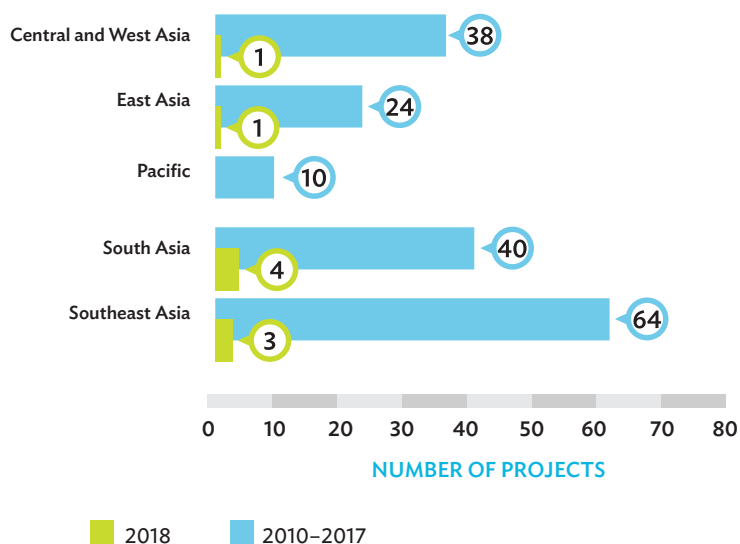

ADB = Asian Development Bank.

Source: ADB.

Among the regions, South Asia, with four projects, had the highest number of approved projects in 2018 (Figure 4). Southeast Asia led in total approvals in 2000–2018, with 67 projects, followed by South Asia with 44.

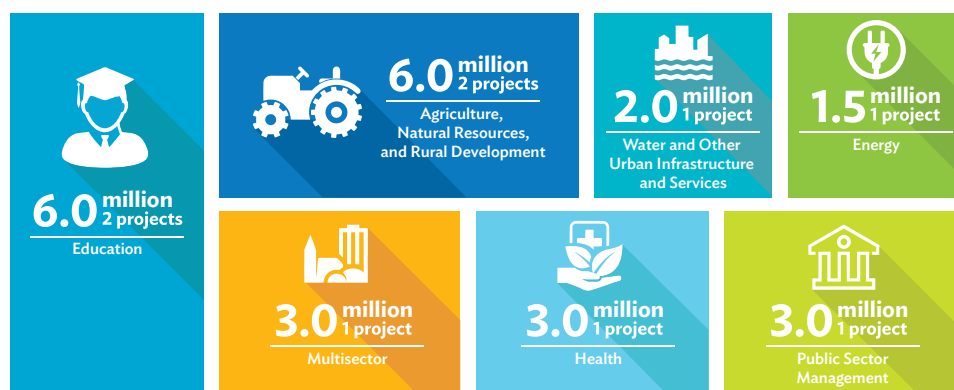

In terms of sector distribution of projects approved in 2018, agriculture, natural resources, and rural development; and education projects are the highest, accounting for \$6.0 million (24.5%) each (Figure 5).

Figure 4: Distribution of ADB-Approved Japan Fund for Poverty Reduction Grants, by Region, 2000–2018

ADB = Asian Development Bank.
Source: ADB.

Figure 5: Amount of ADB-Approved Japan Fund for Poverty Reduction Grants, by Sector, 2018 (\$ million)

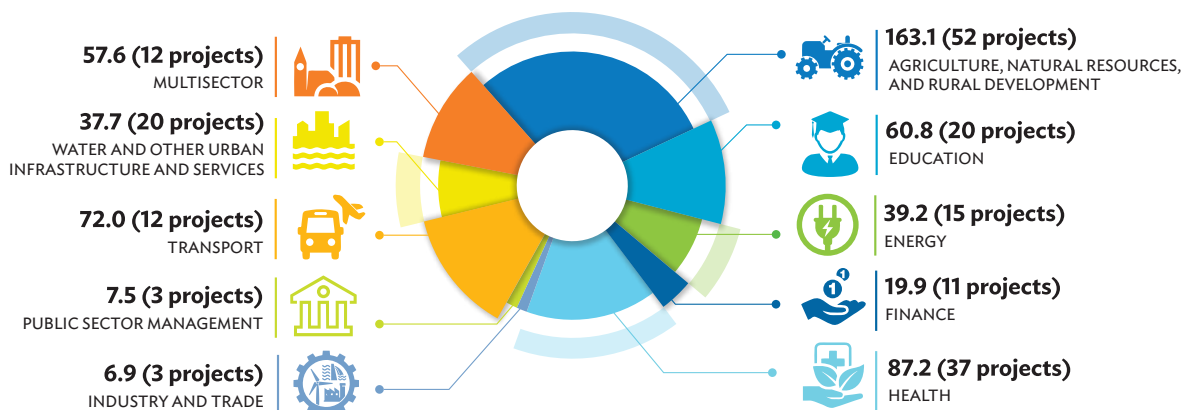

ADB = Asian Development Bank.
Source: ADB.

For 2000–2018, agriculture, natural resources, and rural development projects, with \$163.1 million in approved grants, made up 29.6% of the cumulative grant total (Figure 6), followed by health, with \$87.2 million (15.8%), and transport, with \$72.0 million (13.0%).

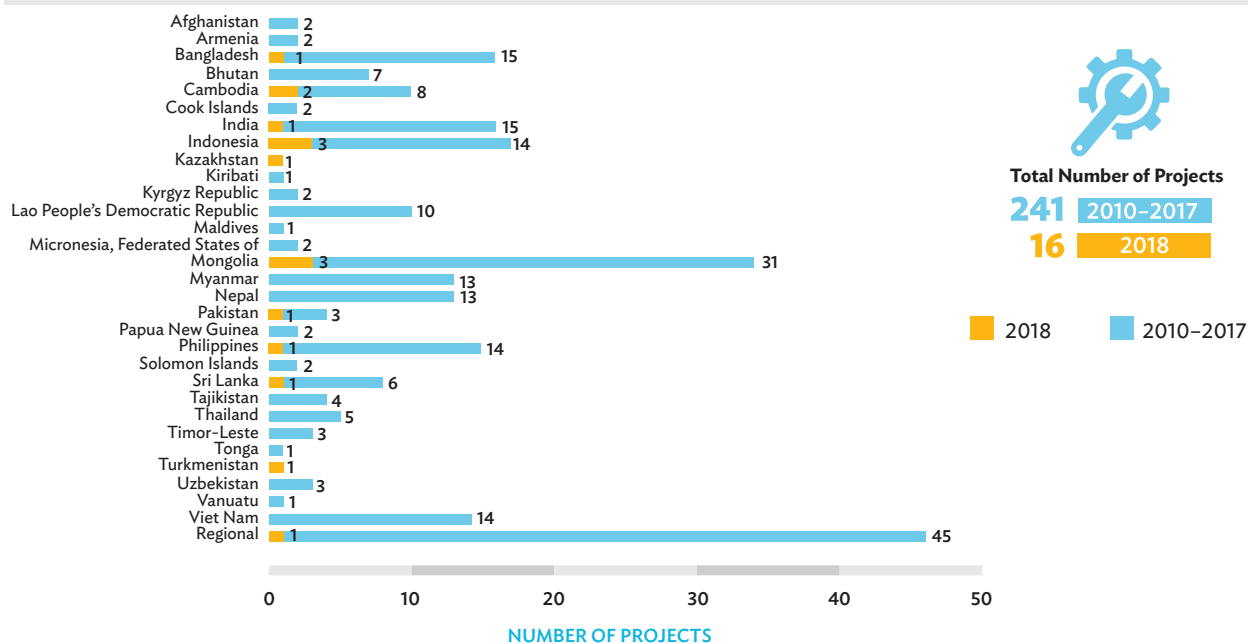

Technical assistance. In 2018, ADB approved 16 TA projects totaling \$25.2 million for 10 countries. As of that year, Mongolia and Indonesia had the most number of TA projects, with three projects each. Figure 7 shows the country distribution of ADB-approved JFPR TA projects.

Figure 6: Amount of ADB-Approved Japan Fund for Poverty Reduction Grants, by Sector, 2000–2018 (\$ million)

ADB = Asian Development Bank.
Source: ADB.

Figure 7: Number of ADB-Approved Japan Fund for Poverty Reduction Technical Assistance Projects, by Country, 2010–2018

ADB = Asian Development Bank.
Source: ADB.

With respect to the sector distribution of TA approved in 2018, the largest share belonged to transport, which received \$4.8 million or 18.8% of the total approved TA amount (Figure 8). Agriculture, natural resources, and rural development led in the share of the cumulative total for 2010–2018 with \$55.0 million, or 17.4% of the total, followed by transport with \$42.5 million (13.5%) (Figure 9).

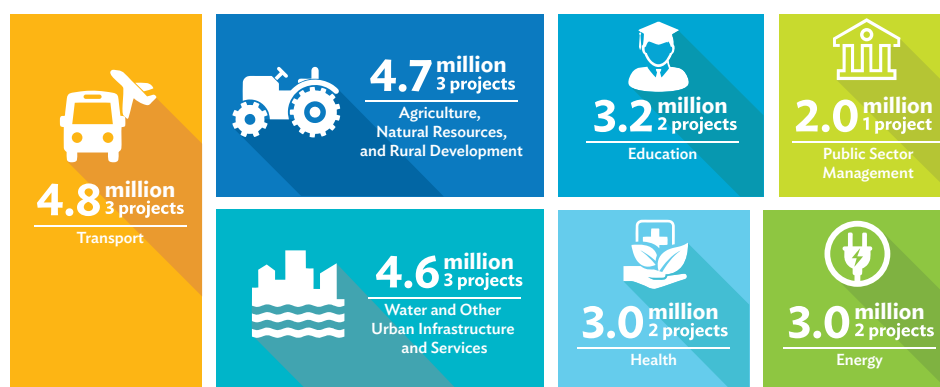

Appendix 3 summarizes the project grants and TA projects approved in 2018.

Letters of Agreement

Project grants. Since 2000, 180 of the 185 JFPR projects approved by ADB during the period have been implemented. Four of the nine projects approved in 2018 took effect during the year.

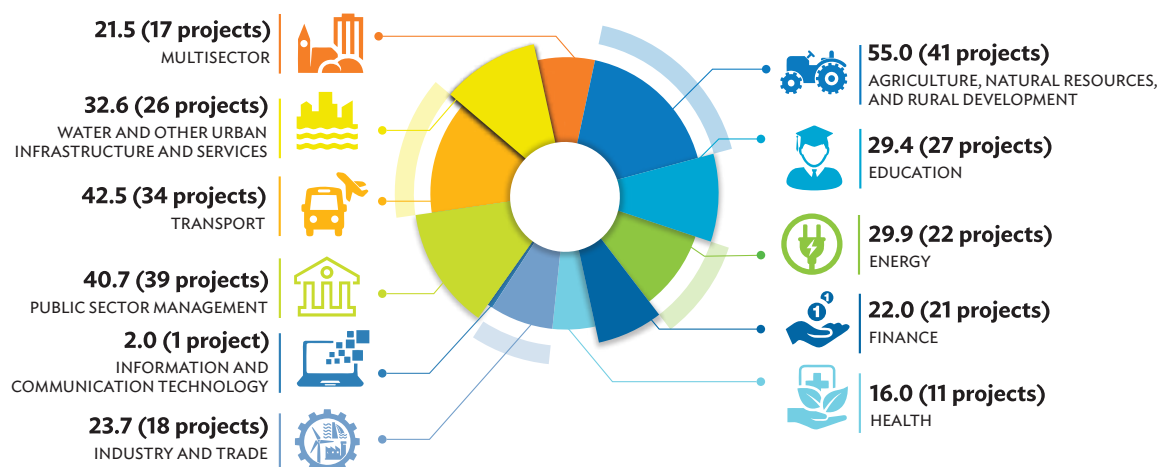

Technical assistance. Of the 257 TA projects approved by ADB since 2010, 250 have taken effect. Ten of the 16 projects approved by ADB in 2018 were in effect as of 31 December 2018.

Box 1 features selected signing events for grant and TA agreements in 2018.

Disbursements

Cumulative JFPR project disbursements from 2000 to the end of 2018 totaled \$623.3 million (Figure 10). Appendix 4 lists the disbursement figures for each project.

Project grants. Project grant disbursements in 2018 totaled \$32.4 million, compared with \$21.5 million in 2017. Cumulative JFPR grant disbursements from 2000 to the end of 2018 amounted to \$411.4 million.

Technical assistance. Disbursements for TA projects in 2018 totaled \$29.7 million, compared with \$32.8 million in

2017. Cumulative JFPR TA disbursements from 2000 to the end of 2018 amounted to \$211.9 million.

Success Stories from the Field

Since the JFPR was established in 2000, about 180 JFPR project grants and 250 TA projects have been implemented across Asia and the Pacific. Of these, 154 project grants and 182 TA have been completed, and their results and lessons have been documented in completion reports to help guide similar or related interventions in the future. Although the projects vary in scope and thematic focus, they all aim to help the poorest and the most vulnerable communities and households improve their socioeconomic conditions. Box 2 features JFPR projects that have changed people's lives for the better.

BOX 1: SIGNING OF JAPAN FUND FOR POVERTY REDUCTION LETTERS OF AGREEMENT

4 APRIL 2018

Mongolia, ADB sign agreements to improve air quality, education, inclusiveness

Mongolia Minister of Finance Khurelbaatar Chimed (*right*), who is also a member of the ADB Board of Governors, and ADB Mongolia Resident Mission (MNRM) Country Director Yolanda Fernandez Lommen (*second from right*), signed three loan agreements and one grant agreement on 4 April 2018 in Ulaanbaatar. The projects will help improve public health and quality of life in Ulaanbaatar and selected provincial centers through enhanced air quality, upgrade the curriculum and provide an additional 10,000 seats in primary schools and kindergartens, and create better job opportunities for people with disabilities through policy support and industry partnerships. The \$2 million JFPR grant will support the project loan that focuses on early identification of children with disabilities through medical and social intervention, while improving service delivery for people with disabilities by constructing and rehabilitating infrastructures and public spaces for accessibility.

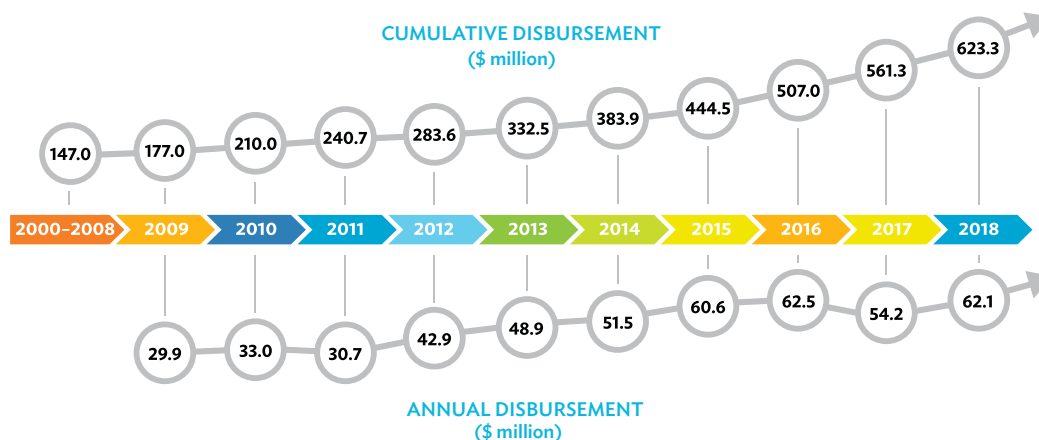

26 APRIL 2018

Mongolia, ADB sign JFPR-funded projects on water governance, provincial centers' investment program

Mongolia Finance Ministry Director General Batkhuy Idesh (*second from left*) and MNRM Country Director Yolanda Fernandez Lommen (*fourth from left*) signed two JFPR-funded technical assistance projects on 26 April 2018 in Ulaanbaatar. The projects will help strengthen water governance at the river basin level to improve the effectiveness and sustainability of investments in the water sector, and prepare an investment program to develop regional urban clusters in selected *aimag* capitals and *soum* centers.

Figure 10: Disbursement of Japan Fund for Poverty Reduction Project Grant and Technical Assistance, by Year, 2000–2018
(\$ million)

ADB = Asian Development Bank.

2 AUGUST 2018

Bangladesh, ADB sign loan agreement to build power plant

Bangladesh Economic Relations Division Additional Secretary Muhammad Alkama Siddiqui (*second from left*) and ADB Bangladesh Resident Mission Country Director Manmohan Parkash (*left*) signed on 2 August 2018 in Dhaka an agreement for a \$500 million loan to develop a state-of-the-art 800-megawatt power plant, along with associated connections to natural gas and power transmission facilities. JFPR grant financing of \$1.5 million will support the improvement of living standards in the communities by increasing awareness on safe and efficient use of electricity, training on livelihood and job opportunities, and providing school laboratory facilities.

16 AUGUST 2018

Maldives, ADB sign grant to establish sustainable solid waste management

Maldives Finance and Treasury Minister Ahmed Munawar (*right*), who is also a member of the ADB Board of Governors, and SARC Director Ronald Butiong on 16 August 2018 in Malé signed a \$33.07 million grant agreement for the Greater Malé Environmental Improvement and Solid Waste Management Project to improve waste collection and transfer, and dumpsite management in the capital region. Maldives Environment and Energy Minister Thoriq Ibrahim joined the signing ceremony. The project is also financed by a \$2 million JFPR grant to support poor communities in outer islands.

BOX 2: SUCCESS STORIES FROM THE FIELD

Protecting small incomes. With crop insurance, farmers in Bangladesh are able to manage and minimize their risk of income loss brought about by extreme weather disasters (photo by M.R. Hasan).

Helping Farmers Weather the Storm

Bangladesh has been severely impacted by climate change, and more frequent droughts, more intense flooding, and more regular storms have exacted a heavy toll on its farmers. While around half of the workforce is engaged in agriculture, around 75% of Bangladesh's population—and 80% of the country's poor—live in rural areas and depend on agriculture in one way or another. In 2007, about 95% of crops in the coastal districts of Bangladesh were destroyed by Cyclone Sidr.

Protecting precarious livelihoods. Previously, farmers in Bangladesh had no way to mitigate their losses from weather-induced disasters because traditional insurers did not have a way to reach smallholders or offer crop insurance suitable for farmers in remote areas, who also lack information on how to protect themselves and often have no collateral.

In 2013, ADB approved a \$2.5 million pilot program to bring crop insurance to farmers in Bangladesh. The program, which includes a \$2 million financing from the Japan Fund for Poverty

I am very proud that I am the first farmer insured for agriculture in Bangladesh.

– *Saiful Islam, farmer, Paba, Rajshahi district*

Reduction (JFPR) designed and piloted a Weather Index-Based Crop Insurance (WIBCI), targeting small and marginal farmers.^a

Crop insurance allows a farmer to claim compensation from their insurer when certain climactic events occur, such as when a cyclone or tropical storm in a given area hits a specified magnitude, or when rainfall rises above or drops below a certain level. This gives farmers the ability to still plan and save for the longer term even if their harvests are damaged by bad weather.

The program works with local insurance partners to distribute and administer the insurance product. WIBCI is also working with the Government of Bangladesh to make sure the right policy and regulatory frameworks are in place to support the new financial products. A new weather index was also generated in conjunction with agriculture research institutions and weather and meteorological departments, using weather data for the past 25–30 years.

The program was piloted in select parts of Bangladesh in 2014, and gradually rolled out nationwide. In the Rajshahi district, where the first pilot program was implemented, a total of 334 awareness program workshops were conducted for

6,905 farmers. This resulted in a total of 5,296 enrollments into the insurance plan. Mobile banking was used to speed up transactions and facilitate claims settlement. It also helped reduce the incidence of fraud.

The program was well received by the farmers. “I am very proud that I am the first farmer insured for agriculture in Bangladesh. For the first time, I paid a premium for two acres of land, and did so in the last five rounds of piloting,” says Saiful Islam, a farmer from Paba, Rajshahi.

For Rafiqul Islam, a farmer from Tanore, Rajshahi, “Agriculture insurance is a blessing for farmers, and we want it for all kinds of crops. We are very much eager to join in the insurance.”

Agriculture insurance is a blessing for farmers, and we want it for all kinds of crops. We are very much eager to join in the insurance.

– *Rafiqul Islam, farmer, Tanore, Rajshahi district*

Gender-inclusive support. Micro, small, and medium-sized entrepreneurs like Gulzhomali Anorkulovna, who operates a beauty salon, make key contributions to employment and growth in the Kyrgyz Republic. Other women like her who learn about financial literacy and gain access to microfinance obtain additional tools to help them sustain their business and improve their living standards (photo by Vyachslav Oseledko).

Supporting Women Entrepreneurs in the Kyrgyz Republic

Women entrepreneurs in the Kyrgyz Republic are getting much needed support to help them grow their businesses, thanks to a JFPR-supported project.

The Ministry of Economy of the Kyrgyz Republic has been implementing the “Women’s Entrepreneurship Development” project since 2014, with the aim of improving the living standards of women living in small towns and rural areas of the Kyrgyz Republic.

Creating opportunities for women entrepreneurs. As part of the program, 630 rural women entrepreneurs between the ages of 28 and 65 throughout the country trained in financial technologies and services that were modified to be more suitable to their needs in developing and running their own businesses. Participants were mainly engaged in production, agricultural products and handicrafts processing, and the service sector.

The project helped develop the business environment for women’s entrepreneurship in the Kyrgyz Republic by providing expert support in lease arrangements, introducing distance learning methods and mentoring, coordinating with the local

government to strengthen its role in the development of women’s entrepreneurship, and defining the export potential of their products, among others. It also provided training to 205 employees of partner financial institutions and other stakeholders to improve their loan services.

The Ministry of Economy closely cooperates within the framework of the project, working with Aiyl Bank, Bai-Tushum Bank, and First MicroCredit Company. As a result, 176 women entrepreneurs received loans for their businesses, with \$1.526 million in 403 loans issued to rural women entrepreneurs.

The project is currently working with five business associations on building their capacity for promoting women’s entrepreneurship and strengthening their role in business development.

ADB will also continue pushing for gender equity through projects in other sectors such as vocational education by introducing programs that promote nontraditional occupations for women, and supporting wider access of women to the labor market.

Saving nomadic herding culture. Chimedregzen Nadmid, a herder, has spent years trying to protect peatlands and water sources near his home in Central Mongolia. A tenuous ecological balance is fracturing as Mongolia's peatlands succumb to climate change, overgrazing, and industrial activity (photo by Tsogtbaatar Khishigdorj).

Mongolia Battles to Save Its Peatlands and Nomadic Way of Life

For millennia, the wetlands of the Orkhon Valley in Central Mongolia have nourished the livestock and livelihoods of herders like Chimedregzen Nadmid, who has lived there all his life.

He remembers when the land was so boggy that riding a horse was impossible. The soil absorbed water like a sponge, forming a vast plain of peatlands that sprouted thick grass and fed lakes and rivers.

Then a couple of decades ago, it changed. Marshy wetlands shrank and grass vanished. "The first thing I noticed was the falling water level," says Chimed, as he is known. "I knew I had to do something."

A fractured ecological balance. Peatlands form when dead plant matter partially decomposes in marshy areas, capturing carbon taken from the air by the plants when alive. The moist, rich soil is a magnet for herders as much of the country's land is exhausted

from overgrazing or desertification. As a result, peatlands are suffering the same fate. They're also being damaged by mining, road construction, and human-caused steppe fires. Climate change is making matters worse.

Peatlands are Mongolia's last fertile pastures. They absorb water from melting snow and rain which they filter and release into rivers and lakes. They prevent soil erosion and maintain groundwater levels that sustain crops and forests while staving off desertification.

But the area covered by peat in Mongolia has almost halved in the past 50 years. This has had a dramatic impact on permafrost—huge lenses of frozen ground left by ancient glaciations. When peat degrades, permafrost begins to thaw. Mongolia now has around a third less permafrost than it did just under 50 years ago.

The economic implications are alarming. Permafrost layers are a significant store of fresh water in Mongolia. Agriculture depends on plentiful water and feedstock.

The first thing I noticed was the falling water level. I knew I had to do something.

– *Chimedregzen Nadmid, resident, Orkhon Valley, Central Mongolia*

Animal husbandry accounts for the vast majority of agricultural production. Livestock numbers in Mongolia have doubled to more than 60 million since the 1990s. This, coupled with several droughts, has caused significant land degradation, forcing livestock to move to peatlands in search of productive pastures.

It is estimated that 80% of Mongolia's cattle are concentrated on natural and degraded peatlands, which cover only 2% of the country's land area.

Depleting carbon sink. Peatlands hold 30% of all soil carbon, so when peatlands degrade and permafrost thaws, disproportionately high emissions of ancient organic carbon are released in higher temperatures.

Mongolia's high elevation and cold, dry weather leave it acutely vulnerable to a warming climate which brings fewer extremely cold days during winter and once unthinkable heat waves in the summer.

High emissions of greenhouse gases would worsen peatland degradation, releasing even more carbon and speeding up climate change.

Reducing climate change impacts. Restoring degraded peatlands and ensuring current peatlands are relatively undisturbed would not only support the livelihoods of herders, it would reduce the extreme impacts of climate change.

Building dams, forging policies. Chimed's initial conservation efforts at peatlands near his home were motivated by a need to save water. They brought mixed results.

Wooden fences he built around springs collapsed when the water froze. A couple of years ago, Chimed, 55, enlisted local herder families to help build a small dam to water their livestock. It worked for a time, until animals trampled the earthen banks into the mud.

In 2015, ADB joined with Wetlands International to build steel fences around springs feeding the peatlands that had been almost completely destroyed by overgrazing and trampling by cattle.

Permafrost and hydrology experts discovered that significant groundwater storage from permafrost thaw was discharging as springs at the surface. The presence of a water source spurred efforts to restore peatlands near Chimed's home. As fences blocked entry to the springs for herders and livestock, a small dam was built to give them access to water.

The 5-hectare restoration site now includes three fenced-in springs and is viewed as a potential model for other parts of the country. Water quality and quantity at the restoration site has increased and grass is growing back. "The area is reverting to its natural state," says Dr. Tsogt Zandraabal of the Institute of General and Experimental Biology, Mongolian Academy of Sciences in Ulaanbaatar.

Research to enable action. The site has also helped to raise awareness of the issue among policy makers and herders.

The scale of the challenge became clear for Gerelt-Od Badarch in 2016 after a seminar on peatland degradation hosted by ADB and the Japan Fund for Poverty Reduction (JFPR). He is a herder who is also the governor of *Khashaat soum* (district) in Arkhangai Province, where the seminar was held. He says he has had to sell his sheep at a low price as they are thinner than before, even though the cost of fodder has nearly doubled.

"There's no grass on the peatlands and no water," says Badarch. "It's having a direct financial impact on herders. But now at least we have a basic understanding of what's happening."

The seminar was part of a technical assistance grant funded by the JFPR at the Government of Mongolia's request.^b It provided invaluable information about peatland ecosystems and their importance to Mongolia effort to protect and conserve these vital areas.

A race against time. The fight to save Mongolia's peatlands will be fought on the ground as well as at policy symposia and

legislatures. The big job now is to convince local people to conserve the peatlands.

Chimed believes that herders in his area now appreciate the need for urgent action, having seen how fast the landscape is deteriorating. That makes him optimistic that at least some of the damage can be mitigated and perhaps reversed.

“Many people around here support me now and I’ve got lots of ideas. My dream is to protect the whole area.”

Monitoring and Consultation

The agreement establishing the JFPR requires representatives of the Government of Japan to carry out monitoring visits to JFPR project sites. In 2018, OCO, together with the ADB executive director for Japan and the director’s advisors, went on coordination and monitoring missions to JFPR project sites in Bangladesh, the Kyrgyz Republic, and Samoa. These missions met with project beneficiaries, ministry of finance officials, heads of project executing and implementing agencies, NGO representatives and community leaders, and officials from the Embassy of Japan and JICA (Box 3).

Completed Projects

As of 31 December 2018, 154 of the 185 project grants since 2000 and 182 of the 257 TA projects since 2009 had been completed. Of the completed project grants, 146 were completed in 2004–2017, and 8 in 2018; 159 of the completed TA projects were completed in 2011–2017, and 23 in 2018. In 2018, OCO received seven implementation completion memorandums detailing the results, lessons, and recommendations from completed JFPR project grants.

Participation of Nongovernment Organizations

The participation of NGOs is deeply ingrained in JFPR operations. The JFPR is widely recognized as one of the primary ADB grant facilities available to NGOs. In JFPR projects, NGOs and community groups are routinely involved in different stages of the project cycle—from fact finding, preparation, and appraisal to implementation, monitoring, and evaluation. NGOs provide information, organize communities, offer specialized services, or act as consultants to ADB during project supervision.

An NGO may take the initiative in bringing a proposal to ADB’s attention. The proposal may then be taken up by an ADB officer, who obtains the necessary project approvals. In such cases, the NGO becomes either an executing agency or an implementing agency, with partnership arrangements detailed in a memorandum of agreement. OCO receives offers of collaboration from various NGOs across Asia and the Pacific, and JFPR staff transmit these offers to the appropriate resident missions or divisions concerned. Appendix 5 lists the NGOs participating in JFPR projects.

BOX 3: COORDINATION AND MONITORING MISSIONS OF THE JAPAN FUND FOR POVERTY REDUCTION, 2018

FEBRUARY 2018

Mission to Samoa with the Advisor of the Executive Director for Japan

ADB's Advisor to the Executive Director for Japan Goshi Tsukamoto met with government officials from Samoa, project beneficiaries, as well as representatives from the Embassy of Japan, and Japan International Cooperation Agency (JICA) on 19–22 February 2018. The mission visited target areas of the Japan Fund for Poverty Reduction-funded Community Sanitation Project and the ADB-JICA cofinanced Power Sector Expansion Project. Photo shows (from left to right) Goshi Tsukamoto, ADB; Sulamanaia Malaga, Planning and Urban Management Agency (PUMA); David Elisara, PUMA; two project beneficiaries, and Toshimasa Mae, ADB, taken in front of the plastic septic tank that was installed as part of Phase 3 of the Levi Saleimoo community sanitation project (photo courtesy of Toshimasa Mae).

MAY 2018

Mission to Bangladesh with the Advisor of the Executive Director for Japan

ADB's Advisor to the Executive Director for Japan Hidemasa Fukuda visited Bangladesh and attended the international seminar organized under the Japan Fund for Poverty Reduction grant Pilot Project on Weather Index-Based Crop Insurance on 13–16 May 2018. The mission visited beneficiaries and stakeholders of select project sites and met with government officials and Japan International Cooperation Agency (JICA) representatives (photo by Rhina Ricci Lopez-Tolentino).

MAY 2018

Mission to the Kyrgyz Republic with the Advisor of the Executive Director for Japan

ADB's Advisor to the Executive Director for Japan Goshi Tsukamoto met with the Kyrgyz Republic executing and implementing agencies of Japan Fund for Poverty Reduction (JFPR) projects on 21–24 May 2018. Together with ADB Japanese Representative Office External Relations Officer Rika Hakozaiki and ADB Office of Cofinancing Operations Financing Specialist Toshimasa Mae, G. Tsukamoto met with Deputy Minister of Economy Almaz Sazbakov, State Secretary of Ministry of Emergency Situations Azamat Mambetov, Director of Water Resources State Committee Esen Jusumatov, as well as representatives of the Embassy of Japan, Japan International Cooperation Agency, partner financial institutions, project beneficiaries, and business associations. The mission visited beneficiaries of three JFPR-funded projects: Women's Entrepreneurship Development, Strengthening the Enabling Environment for Public-Private Partnerships, and Preparing the Climate Resilience and Disaster Risk Reduction in Water Resources Management (photo by Rika Hakozaiki).

OCTOBER 2018

Mission to Myanmar with the Advisor of the Executive Director for Japan

ADB's Advisor to the Executive Director of Japan, Ayumi Takeyama (third from right) went on mission to Myanmar on 16–19 October 2018 to visit project sites under Enhancing Rural Livelihoods and Incomes (ERLIP) at Shan State—one of the three states where the project is being implemented. A. Takeyama visited the Ywangan Township in the villages of Ngar Su, Pway Na Phar, Sin Net Chaung, and Nan Khaon. Together with ADB's Hiroki Kasahara (second from right), and Stefania Dina (third from left) A. Takeyama also met with the officials from the Department of Rural Development, staff from the grant implementation unit, the support services provider, and conducted consultations with almost 400 villagers. The ERLIP project aims to improve productivity and enhance livelihoods through community-driven development initiatives which will then help participants foster ownership of their community infrastructure and livelihoods (photo by Rhina Ricci Lopez-Tolentino).

Outreach, Visibility, and Knowledge Sharing

As agreed with the Government of Japan, project officers are asked to help promote the visibility and local awareness of the JFPR in recipient countries. For this purpose, ADB project officers and OCO ensure that key events in the field are well covered by print and electronic media; that all related publicity materials, official notices, reports, and publications explicitly acknowledge Japan as the source of funding; and that the JFPR and Japan official development assistance logos are prominently displayed. JFPR projects are also encouraged to complement and seek synergies with JICA projects

and technical cooperation activities. Projects should likewise take advantage of Japanese human resources or use Japanese technology, knowledge, and expertise.

Officials of the Embassy of Japan and JICA, government officials, the ADB country director, and resident mission staff attend ceremonies held to mark a grant or TA signing or launch. They may also attend the inauguration of facilities, the handover of major equipment, major conferences and workshops, and similar events. These project milestones and other important JFPR events and announcements are featured in *ADB Today*, ADB's daily in-house electronic newsletter. Some JFPR activities highlighted by *ADB Today* in 2018 are shown in Box 4.

Weaving for better incomes.

Basket production is a part of the JFPR-supported Improving Market Access for the Poor in Central Cambodia project that aims to improve livelihoods by creating jobs for local people like Chhea Nhem, a basket weaver who lives in Chrames village, Sambor commune, Prasat Sambor district in Kampong Thom, Cambodia (photo by Chor Sokunthea).

BOX 4: JAPAN FUND FOR POVERTY REDUCTION ANNOUNCEMENTS IN ADB TODAY, 2018

19 APRIL 2018

Microentrepreneurship workshop for women's empowerment held in India

The workshop for Supporting Microentrepreneurship for Women's Empowerment focused on overall achievement of the JFPR grant, implemented by the Ministry of Rural Development, was held on 19 April. The event was organized by India Resident Mission and was attended by about 80 participants from central and state government agencies, sector skills councils, training institutes and agencies, the Embassy of Japan, and ADB.

5 SEPTEMBER 2018

ADB supports Mongolia capacity building, strategic planning on long-term care services

Mongolia's Ministry of Labor and Social Protection and ADB hosted a 2-day workshop on strategic planning and strengthening of long-term care system and services on 30-31 August in Ulaanbaatar. Over 40 participants from government agencies, private sector, and NGOs joined the event. Resource persons from the PRC, Singapore, and Thailand shared innovations, best practices, and lessons in adapting to aging populations.

13 MAY 2018

International seminar on financial protection, agriculture risk mitigation held in Bangladesh

BRM Country Director Manmohan Parkash discussed the policies and technologies to scale up sustainable agriculture insurance at the seminar on 13 May in Dhaka. Over 120 stakeholders including senior government officials; development partners; insurance professionals; ADB staff; and experts from Bangladesh, India, Spain, and Turkey attended. The seminar is supported by the Japan Fund for Poverty Reduction pilot project on Weather Index-Based Crop Insurance.

10 OCTOBER 2018

Workshop on strengthening water governance at the river basin level held

Mongolia Ministry of Environment and Tourism Director General Bulgan Tumendemberel and MNRM Country Director Yolanda Fernandez Lommen opened the inception workshop on 9 October in Ulaanbaatar. Representatives from government, river basin councils, river basin administrations, and other key stakeholders discussed water governance challenges and identified action plans for increased water security. The \$1.4 million technical assistance is supported by the Japan Fund for Poverty Reduction and High-Level Technology Fund.

5 NOVEMBER 2018

Workshop on India-Sri Lanka power transmission interconnection

Senior officials from the government and Ceylon Electricity Board participated in an awareness workshop on business models for India-Sri Lanka power transmission interconnection held on 15 October in Colombo. Secretary Suren Batagoda, Ministry of Power and Renewable Energy, chaired the activity which was supported by the TA on SASEC Regional Energy Cooperation. SLRM Country Director Sri Widowati delivered welcome remarks.

14 DECEMBER 2018

Workshop on improving farm producers access to markets held in India

SAER Director Mio Oka on 11 December in Mumbai opened the 2-day workshop on lessons learned from the JFPR: Small Farmers Access to Markets and findings of the pre-feasibility study for the Maharashtra Agribusiness Network Project. Praveen Pardeshi, Additional Chief Secretary to Chief Minister of Maharashtra, attended along with 140 representatives from government agencies, academics, private sector, and farmer groups.

Annual ADB Board of Governors' Meeting 2018.

At the 51st Annual Meeting of the ADB Board of Governors at the ADB headquarters in Manila, Philippines, in May 2018, OCO organized a Japan Funds exhibit featuring innovative and sustainable projects

supported by the JFPR. Delegates, including high-level officials from governments around the world, visited the exhibit where posters, publications, livelihood products, and other promotional materials were on display to showcase the success of JFPR projects.

The Government of Japan's Deputy Prime Minister and Minister of Finance, Taro Aso (center) visited the Japan Funds exhibit during the 51st Annual ADB Board of Governors' Meeting in Manila, Philippines, with Toshimasa Mae (left) and Angelica Sebastian-Mercader (right), ADB Office of Cofinancing Operations (photo by Hidemasa Fukuda).

OCO Associate Financing Partnerships Analyst, Angelica Sebastian-Mercader (right), explains livelihood products from JFPR projects to visitors at the Japan Funds exhibit during the 51st Annual ADB Board of Governors' Meeting in Manila (photo by Toshimasa Mae).

The Japan Funds exhibit during the 51st Annual ADB Board of Governors' Meeting in Manila, Philippines, not only highlighted the results of successful Japan Fund for Poverty Reduction projects but also featured actual products from its livelihood projects (photo by Angelica Sebastian-Mercader).

External outreach. The Japan Funds Facebook page is an important modern platform using social media to spread information about the JFPR and improve awareness of Japanese assistance through ADB. The *Japan Fund for Poverty Reduction Annual Report 2017* was also produced. Appendix 6 lists JFPR communication and outreach activities in 2018.

2019 ACTIVITIES

Rebuilding for brighter futures.

After Typhoon Yolanda (Haiyan) hit the Philippines, new classrooms built in Bislig Elementary School, on the island of Leyte, are providing children with the opportunity to learn in a clean, safe environment and look forward to a better future (photo by Eric Sales).

In 2019, the focal areas of OCO are

- developing efficient monitoring of the JFPR grant and TA project portfolio, using online systems;
- enhancing coordination with ADB regional departments, specifically ADB resident missions, to facilitate the preparation, processing, and administration of JFPR project and TA grants;
- further promoting Japanese visibility by encouraging collaboration with Japanese NGOs, academic institutions, and the private sector, among other activities, including widening outreach through social media;
- continuing efforts to promote knowledge management and dissemination of lessons learned; and
- including a JFPR exhibit during the ADB 52nd Annual Meeting in Nadi, Fiji, in May 2019.

INDEPENDENT AUDITOR'S REPORT

To the Asian Development Bank – Administrator for Japan Fund for Poverty Reduction

We have audited the accompanying financial statements of Japan Fund for Poverty Reduction administered by Asian Development Bank (ADB) (the Administrator) which comprise the statement of financial position as of 31 December 2018 and 2017, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ADB – Japan Fund for Poverty Reduction as of 31 December 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

JFPR-4

JAPAN FUND FOR POVERTY REDUCTION
(Administered by Asian Development Bank)

NOTES TO FINANCIAL STATEMENTS
31 December 2018 and 2017

NOTE A—NATURE OF OPERATIONS

The Japan Fund for Poverty Reduction (JFPR) was established on 23 May 2000 when the Government of Japan and the Asian Development Bank (ADB) entered into a financial arrangement whereby the Government of Japan agreed to make an initial contribution and ADB became the administrator. Its primary objective is to foster sustainable poverty reduction and social development in the developing member countries of the Asian and Pacific Regions. JFPR resources are used mainly to finance poverty reduction assistance (PRA) operations. On 6 October 2009, the operating framework for the JFPR was revised to include financing for technical assistance grants. Under the agreement between ADB and the Government of Japan, ADB may invest the proceeds of the JFPR pending disbursement. The revenue from such investments may be used to cover the direct and identifiable costs incurred in the administration of the JFPR.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Presentation of the Financial Statements

The financial statements of the JFPR are prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP), and are presented on the basis of those for not-for-profit organizations.

The JFPR reports donor's contribution of cash as assets without donor restrictions as it is made available to the JFPR without conditions other than for the purpose of pursuing the objective of the JFPR.

Functional and Reporting Currency

The United States (US) dollar is the functional and reporting currency, representing the currency of the primary economic environment of the JFPR.

Translation of Currencies

ADB adopts the use of daily exchange rates for accounting and financial reporting purposes. This allows transactions denominated in non-US dollar currencies to be translated to the reporting currency using exchange rates applicable at the time of the transactions. Contributions included in the financial statements during the year are recognized at applicable exchange rates as of the respective dates of commitment. At the end of each accounting month, translations of assets and liabilities which are denominated in non-US dollar currencies are adjusted using the applicable rates of exchange at the end of the reporting period. Translation adjustments are accounted for as exchange gains or losses and are credited or charged to operations.

Investments

All investment securities held by the JFPR are reported at fair value (FV). Realized and unrealized gains and losses are included in REVENUE From investments.

Interest income on investment securities and time deposits is recognized as earned and reported net of amortizations of premiums and discounts.

JFPR-4

Contributions

Contributions by the Government of Japan are included in the financial statements from the date indicated by the Government of Japan that funds are expected to be made available. Such contributions and the net assets of the JFPR are restricted for the payment of poverty reduction technical assistance and direct and identifiable costs incurred by ADB in the administration of the JFPR.

Poverty Reduction Assistance, Technical Assistance and Related Undisbursed Amounts

Poverty Reduction Assistance (PRA) and Technical Assistance (TA) are recognized in the financial statements when the project is approved and becomes effective. Upon completion or cancellation of the PRA/TA project, any undisbursed amount is written back as a reduction in the PRA/TA for the year and the corresponding undisbursed amount is eliminated accordingly.

Advances under PRA and TA are provided to the executing agency or co-operating institution for the purpose of making payments for eligible expenses. The advances are subject to liquidation and charged against undisbursed amount. Any unutilized portion is required to be returned to the JFPR.

Fair Value of Financial Instruments

Accounting Standards Codification (ASC) 820, "Fair Value Measurement" defines FV as the price that would be received to sell an asset or paid to transfer a liability at measurement date in an orderly transaction among willing participants with an assumption that the transaction takes place in the entity's principal market, or in the absence of principal market, in the most advantageous market for the asset or liability. The most advantageous market is the market where the sale of the asset or transfer of liability would maximize the amount received for the asset or minimize the amount paid to transfer the liability. The FV measurement is not adjusted for transaction costs.

Fair Value Hierarchy

ASC 820 also establishes a FV hierarchy that gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), next priority to observable market inputs or market corroborated data (Level 2), and the lowest priority to unobservable inputs without market corroborated data (Level 3).

The FVs of ADB's financial assets and liabilities are categorized as follows:

- Level 1: FVs are based on unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: FVs are based on quoted prices for similar assets or liabilities in active markets or markets that are not active; or valuation models for which significant inputs are obtained from market-based data that are observable.
- Level 3: FVs are based on prices or valuation models for which significant inputs to the model are unobservable.

Inter-level transfers from one year to another may occur due to changes in market activities affecting the availability of quoted market prices or observable market data.

ADB's policy is to recognize transfers in and transfers out of levels as of the end of the reporting period in which they occur.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Management to make reasonable estimates and assumptions that affect the reported amounts of assets, liabilities and uncommitted balances as of the end of the year and the reported amounts of revenue and expenses during the year. The actual results could differ from those estimates.

JFPR-4

Accounting and Reporting Developments

In 2016, the Financial Accounting Standards Board (FASB) issued the following Accounting Standard Update (ASUs): (i) 2016-14, "Not-for-Profit Entities (Topic 958) - Presentation of Financial Statements of Not-for-Profit Entities," which improves the usefulness of information provided to donors and other users of not-for-profit entity (NFP) financial statements and reduce complexities or costs in preparing the financial statements. The amendments in this update significantly changes how NFPs present net assets on the face of the financial statements, as well as requires additional disclosures for expenses by nature and function and for the liquidity and availability of resources. This ASU impacted presentation and disclosures on the JFPR's annual financial statements as of 31 December 2018, and are reflected in JFPR-1, JFPR-2, JFPR-3 and Notes H and I; and (ii) ASU 2016-15, "Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments," which provides guidance for eight specific cash flow issues where current standards are unclear or lack specific guidance. This update became effective on 1 January 2018 and is reflected in JFPR-3.

In June 2018, FASB issued ASU 2018-08, "Not-for-Profit Entities (Topic 958) - Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made", which should assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of Topic 958, Not-for-Profit Entities, or as exchange (reciprocal) transactions subject to other guidance and (2) determining whether a contribution is conditional. The amendments in this update are effective for ADB on 1 January 2019 but are not expected to have a material impact on the JFPR's financial statements.

In August 2018, as part of the FASB's disclosure framework project that is based on the newly issued FASB Statement of Financial Accounting Concepts No. 8 "Conceptual Framework for Financial Reporting— Chapter 8: Notes to Financial Statements", the FASB issued ASU 2018-13 "Fair Value Measurement (Topic 820)—Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement" which modifies and aims to improve the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement. This amendment is effective for ADB on 1 January 2020. ADB is currently assessing the impact of this ASU on the JFPR's financial statements.

Statement of Cash Flows

For the purposes of the Statement of Cash Flows, the JFPR considers that its cash and cash equivalents are limited to DUE FROM BANKS, which consists of cash on hand and current accounts in banks used for operational disbursements and clearing accounts.

NOTE C—INVESTMENTS

The main investment management objective is to maintain security and liquidity. Subject to these parameters, ADB seeks the highest possible return on the JFPR's investments. Investments are governed by the Investment Authority approved by the Board of Directors.

The annualized rate of return on the average investments held during the year, based on the portfolio held at the beginning and end of each month, was 2.06% (1.10% - 2017).

JFPR-4

Fair Value Disclosure

The FV of INVESTMENTS as of 31 December 2018 and 2017 was as follows:

(\$ thousand)

31 December 2018	Total	Fair Value Measurements		
		Level 1	Level 2	Level 3
Investments				
Government or government-guaranteed obligations	\$ 26,602	\$ 26,602	-	-
Time deposits	213,516	-	\$ 213,516	-
Total	\$ 240,118	\$ 26,602	\$ 213,516	\$ -

31 December 2017

Investments				
Time deposits	\$ 270,054	\$ -	\$ 270,054	\$ -

ADB maintains documented processes and internal controls to value investment securities. If available, investment securities are fair valued based on active market quotes. These include government or government-guaranteed obligations. Time deposits are reported at cost, which approximates FV.

NOTE D—RELATED PARTY TRANSACTIONS

Related party transactions pertain to administrative and operational expenses which are settled regularly with ADB's ordinary capital resources (OCR). Technical assistance projects and program activities may be cofinanced by ADB's special funds and other funds administered by ADB (Trust Funds). Interfund accounts are settled regularly between the JFPR and other funds.

JFPR-4

The interfund account balances reported as RECEIVABLE FROM RELATED FUNDS and PAYABLE TO RELATED FUNDS were as follows:

(\$ thousand)	2018	2017
Receivable from:		
Regional Cooperation and Integration Fund (RCIF)	\$ -	\$ 0
Trust Funds-net	-	0
Total	\$ -	\$ 0
Payable to:		
OCR-net	\$ 160	\$ 182
Technical Assistance Special Fund (TASF)	197	13
Trust Funds-net	0	-
Total	\$ 357	\$ 195

0 = Less than \$500.

The net interfund balances of OCR, TASF and Trust Funds as of 31 December 2018 were subsequently settled on 25 and 29 January 2019 and 28 February 2019, respectively. The net interfund balances of OCR, TASF, RCIF and Trust Funds as of 31 December 2017 were subsequently settled on 29, 30, and 26 January 2018, respectively.

NOTE E—ACCRUED EXPENSES

Accrued expenses pertain to administrative and audit fees incurred but not yet paid.

NOTE F—UNDISBURSED POVERTY REDUCTION ASSISTANCE AND TECHNICAL ASSISTANCE

Undisbursed PRA and TA are denominated in US dollars and represent effective PRA and TA projects which are not yet disbursed and unliquidated. During 2018, \$13,158,000 (\$8,780,000 - 2017) representing completed and cancelled PRA and TA projects were written back as a reduction in PRA and TA for the period and the corresponding commitment was eliminated. The FV of undisbursed PRA and TA approximates the amounts outstanding, because the JFPR expects that disbursements will substantially be made for all the projects/programs covered by the commitments.

NOTE G—CONTRIBUTIONS AND UNCOMMITTED BALANCES

The Government of Japan contributed the sum of ¥2,849,000,000 (equivalent to \$25,795,000) and ¥5,358,160,000 (equivalent to \$46,447,000) in 2018 and 2017, respectively.

Uncommitted balances comprise amounts which have not been committed by ADB as of 31 December 2018 and 2017. These balances include approved PRA and TA projects that are not yet effective.

JFPR-4

As of 31 December 2018 and 2017, these balances were as follows:

(\$ thousand)			
	2018		2017
Uncommitted balances	\$	132,628	\$ 124,383
PRA and TA projects/programs approved by Japan and ADB but not yet effective		(27,150)	(11,500)
PRA and TA projects/programs approved by Japan but not yet effective		(11,250)	(7,250)
Uncommitted balances available for new commitments	\$	94,228	\$ 105,633

NOTE H—EXPENSES

Poverty reduction assistance and technical assistance—net

PRA and TA expenses are classified according to their nature using the budget allocation specified in the relevant PRA and TA agreement for the PRAs and TAs that became effective during the year. The details of PRA and TA expenses for the year ended 31 December 2018 are as follows:

(\$ thousand)	
	2018
Consultants	\$ 11,602
Studies	149
Trainings and seminars	22
Others expenses—net ^a	9,119
Total	<u>\$ 20,892</u>

^a Net of savings and cancellations (See Note F).

Administrative expenses

Administrative expenses include consultants and other expenses, which are incurred for management and general supporting activities. The table below summarizes the administrative expenses for the year ended 31 December 2018:

(\$ thousand)	
	2018
Staff related expenses	\$ 1,614
Consultants	224
Business travel	165
Audit fees	18
Other administrative expenses	13
Total	<u>\$ 2,034</u>

JFPR-4

NOTE I—LIQUIDITY AND AVAILABILITY OF RESOURCES

Liquidity risk refers to the risk that the fund has difficulties in meeting its short-term obligations. As part of the JFPR's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. In addition, as part of its liquidity management, the JFPR invests cash in excess of daily requirements in short-term investments.

The JFPR has a liquidity of \$242,388,000 consisting of DUE FROM BANKS of \$2,270,000 and INVESTMENTS of \$240,118,000, available within one year of the balance sheet date to meet cash needs for general expenditures as presented in the Statement of Financial Position. None of the financial assets are subject to donor or other contractual restrictions that make them unavailable for general expenditures within one year of the balance sheet date.

NOTE J—OTHER FAIR VALUE DISCLOSURES

As of 31 December, 2018 and 2017, the JFPR has no assets or liabilities measured at FV on a non-recurring basis. See Notes C and F for discussions relating to investments and undisbursed PRA and TA, respectively. In all other cases, the carrying amounts of JFPR's assets and liabilities are considered to approximate FV.

NOTE K—SUBSEQUENT EVENTS

JFPR has evaluated subsequent events after 31 December 2018 through 14 May 2019, the date these financial statements are available for issuance. On 18 January 2019, the JFPR received its additional contribution from the Government of Japan amounting to ¥1,939,812,000 (equivalent to \$17,754,000).

APPENDIX 3

Brief Summaries of Japan Fund for Poverty Reduction Projects Approved in 2018, by Region

PROJECT GRANTS

Central Asia

Pakistan

Balochistan Water Resource Development Project

Amount: \$3.0 million

The project aims to increase farmers' income by piloting farming technology to increase agricultural production in selected project areas in the Zhob and Mula river basins in Balochistan.¹

The project will also provide infrastructure support for the installation of cost-effective solar-power drip irrigation systems to improve water delivery. Balochistan Province is the most water-scarce province in Pakistan, a country where agriculture is the main source of livelihood in rural areas and accounts for about two-thirds of the provincial domestic product.

The introduction of high-value fruit and vegetable farming technology for 160 farms representing at least 130 hectares, and the construction of olive oil extraction plants, fruit and vegetable processing plants, and small-scale income-generating agribusiness for livestock will increase cropping intensity and production. The project will also provide training to participating rural communities, focusing on women, on how to efficiently use water and agricultural inputs, particularly on cropping pattern, water and fertilizer management, post-harvest management and processing.

East Asia

Mongolia

Combating Domestic Violence against Women and Children

Amount: \$3.0 million

The project is ADB's first-ever dedicated initiative to address domestic violence in Mongolia, where estimates show that one in five women have been victims of domestic violence and 70% of women have experienced gender-based violence at least once in their lifetime.² Domestic violence has socioeconomic impacts in terms of health costs, lost working days, and reduced attendance for school children.

The project aims to raise awareness on the prevalence of gender-based violence and domestic violence and the need to prevent it and promote behavioral change, increase access to services for gender-based violence survivors, and improve legal and policy enforcement mechanisms.

Model shelters in three *aimags* (provinces) and two districts for women and children survivors will be established to increase current shelter capacity by 50%, with two of the shelters accessible for persons with disabilities. Other services to be offered include psychosocial counseling, outreach activities by multidisciplinary teams in remote rural and suburban areas, training on and access to livelihood development and financing, and vocational training, and legal literacy program.

¹ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant and Technical Assistance to Islamic Republic of Pakistan for Balochistan Water Resource Development Sector Project*. Manila. <https://www.adb.org/projects/48098-002/main>. (L3700, G0597, G9197, TA9576).

² ADB. 2018. *Grant Assistance Report: Proposed Administration of Grant to Mongolia for Combating Domestic Violence Against Women and Children*. Manila. <https://www.adb.org/projects/51217-001/main>. (G9198).

Targeted capacity building will be provided to government officials, shelter staff, multidisciplinary team members, police officers, peer educators and caregivers. Improvements to existing helpline center 107 will be supported with software and database system and training of operators on communication first response. Community groups at grassroots level, serving as support mechanisms, will be mobilized to reinforce the communication and awareness materials produced under the project. Behavioral change campaigns will be piloted in the project sites through community and school-based activities and later assessed for their effectiveness.

The project is expected to directly benefit 2,132 persons, including 600 women domestic violence survivors and 130 persons with disabilities, while indirect beneficiaries are estimated to total 605,922 persons, of whom women constitute 306,308.

South Asia

Bangladesh

Rupsha 800-Megawatt Combined Cycle Power Plant

Amount: \$1.5 million

The project supports the Bangladesh government's priority to improve energy security by building a new power plant to make energy supply more accessible, efficient, affordable and cleaner, as the country's growth and economy are gradually shifting from agriculture to manufacturing and services.³

The grant will provide the marginalized and vulnerable villagers living around the power plant site with a safe and inclusive educational environment, access to renewable energy, training (capacity building), technical and skills training to expand employment and livelihood, and create social and gender awareness in the energy sector. To supplement the new relocated schools' connection to the power grid, the project will install solar panels and provide efficient electrical appliances, information technology (IT) and science laboratories, multifunction

hall, playground, and an emergency clinic. The program will also provide training for teachers and students on the safe use of equipment, facilities, and IT.

Villagers will be consulted on the appropriate technical and skills training they need that are related to energy-based livelihood activities and employment opportunities, including those relating to monitoring and preservation of biodiversity within the project area. The implementing agency, the Northwest Power Generation Company Limited, will conduct a series of gender and energy workshops, prepare an inclusive community development strategy, and conduct outreach activities for students to consider potential careers in the energy sector.

India

West Bengal Drinking Water Sector Improvement

Amount: \$3.0 million

The project is part of a \$245 million financing to support the initiative of the Government of West Bengal to provide safe and sustainable drinking water to about 1.65 million people living in West Bengal, the fourth most populous state with the worst-impacted state in terms of arsenic, fluoride, and salinity contamination.⁴ With the replacement of existing water hand pumps and tube wells with a piped water supply distribution network directly to households, West Bengal's problem on contamination would be addressed. The capacity of institutions and stakeholders will be strengthened to ensure the reliable delivery, operation, and maintenance of drinking water services and improved public health.

This Japan Fund for Poverty Reduction (JFPR) project will focus on enabling and providing skills to communities in establishing smart water management systems to be owned and operated at the *gram panchayats*-level or governing bodies working at the village level. Beneficiaries will be provided with equipment such as smart meters, handheld meter readers, leak detection tools, and computers and software for billing and collection. Capacity building programs on water supply operations

³ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant to the People's Republic of Bangladesh for the Rupsha 800-Megawatt Combined Cycle Power Plant Project*. Manila. <https://www.adb.org/projects/50161-003/main>. (L3676, G9194).

⁴ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant and Technical Assistance Grant to India for the West Bengal Drinking Water Sector Improvement Project*. Manila. <https://www.adb.org/projects/49107-006/main>. (L3696, G9196, TA9573).

will be conducted. Technical skills training on plumbing, household and meter connections, and pump operation and maintenance (O&M) will create additional jobs. Other project activities include the formulation of a regulatory framework for fecal sludge and septage management and its pilot implementation of innovative approaches in one project district to improve sanitation status, while conducting community awareness raising activities on water conservation, public health, and sanitation, and leadership and livelihood training for residents, new water supply staff, and executive members of village water and sanitation committees.

Maldives

Greater Malé Environmental Improvement and Waste Management Project

Amount: \$2.0 million

Maldives is faced with serious environmental pollution caused by inadequate collection and haphazard disposal of solid waste through open dumping and burning of garbage. This poses not only a threat to tourism and fisheries, which are cornerstones of Maldives' economy, but also affects health and living conditions of communities, particularly the poor communities in the outer islands where awareness and capacity are limited to effectively manage the accumulated garbage problem.

The Government of Maldives, with project financing from ADB, will establish a sustainable solid waste management (SWM) system in severely affected areas of the Greater Malé capital region and for at least 22 outer islands, develop and upgrade island waste management centers (IWMCs). The JPFR grant will support 11 island IWMCs with equipment and civil works and local communities will receive skills training and capacity building on how to maintain and sustain SWM system.⁵ Public awareness campaigns on the benefits of 3R (*Reduce, Reuse, Recycle*) and SWM will also be conducted, focusing on the poor and women stakeholders in the outer island communities.

Sri Lanka

Skills Sector Enhancement Program—Additional Financing

Amount: \$3.0 million

The project will support the Government of Sri Lanka's continuing initiative to improve its technical and vocational education and training (TVET) system, increase its youth beneficiaries from regions where poverty incidence is higher than the national average, and attain a higher employment rate among TVET graduates.⁶ This will be achieved through innovative approaches involving private sector participation, women-focused TVET interventions, and sustainable employment programs.

Private sector engagement in TVET will be strengthened, with the Ministry of Skills Development and Vocational Training helping industry councils and skills forums in designing activities to increase employability of graduates, especially women.

The project's special focus on women aims to promote self-employment under the government's Entrepreneurship Development Training Program through sector-specific trainings, business expansion modules, business counseling, mentoring, on-the-job-training in traditionally male-dominated fields, networking and trade events, training for male family members of women entrepreneurs, and advisory services for employers on best practices on gender-inclusive recruitment and working environments that promote women employment. The project directly targets 3,500 people, including at least 2,000 women, TVET graduates from selected districts of Northern, North Western, Uva, and Sabaragamuwa provinces and poverty-stricken areas spread around the Western Province.

⁵ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Grant and Technical Assistance Grant and Administration of Grant to the Republic of Maldives for the Greater Malé Environmental Improvement and Waste Management Project*. Manila. <https://www.adb.org/projects/51077-002/main>. (G0580, G9195, TA9543).

⁶ ADB. 2018. *Additional Financing: Skills Sector Enhancement Program in Sri Lanka*. Manila. <https://www.adb.org/projects/42251-019/main>. (L3650, L3651, G9193).

Southeast Asia

Philippines

Emergency Assistance for Reconstruction and Recovery of Marawi

Amount: \$3.0 million

In 2017, the 5-month armed conflict in Marawi City in Southern Philippines resulted not only in the destruction of the city's infrastructure but also caused massive displacement of almost 370,000 people and pronounced disruption of income, livelihoods, and education. To respond to the continuing vulnerability of the internally displaced people (IDP), the Government of the Philippines established the Bangon Marawi Comprehensive Rehabilitation and Recovery Program (BMCRRP) for coordinated reconstruction and restoration efforts with the international community and other actors.

The JFPR grant project is part of ADB's emergency loan assistance program designed to provide immediate and flexible financing to implement projects and activities included in the BMCRRP.⁷ The grant project will support the rapid delivery of social service initiatives patterned after existing government programs focusing on short-term employment, longer-term livelihood development, and learning and education opportunities for IDP in Marawi and the neighboring municipalities of Marantao, Piagapo, and Saguiran.

The project is composed of three components: (i) emergency employment in the form of cash-for-work assistance; (ii) livelihood support, which comprises skills training, starter kits, advisory services, market linkages, and group microinsurance coverage; and (iii) quality education through intentional use of context-sensitive learning approaches, school rehabilitation, integration of peace education in the curriculum, capacity building, and project management support.

Viet Nam

Second Health Human Resources Development Project

Amount: \$3.0 million

The project will support the Government of Viet Nam in achieving Universal Health Coverage (UHC), including access to essential health-care services, as contained in its National Action Plan for the Implementation of the 2030 Sustainable Development Agenda.⁸ Priority will be given to increase the supply of quality health workers, particularly at the local health care (LHC) level.

The JFPR project grant is part of an investment loan project that will design, construct, and operationalize the education facilities of the new Hanoi Medical University and University of Medicine and Pharmacy at Ho Chi Minh City. This will result in innovative approaches to engaging teaching institutions in promoting community health and applying information technology-based learning to enhance the delivery of quality health-care services. The new teaching facilities and approaches will help increase enrollment and teaching capacity.

The JFPR grant will focus on improving the quality of health graduates from these universities by pilot-testing a model where students will be assigned to 35 rural and urban commune health stations servicing poor and vulnerable populations. By providing direct health service delivery, students can assess health needs in disadvantaged communities and determine the behavioral, social, and environmental causes of health inequality. Four key degree programs will be updated in line with international quality standards to strengthen the capacities of both students and faculty members. Health stations will be provided with clinical equipment and specialized equipment for women's health issues. The quality of health workforce in four remote LHC facilities in disadvantaged communities will also be enhanced through pilot-testing the delivery of continuing medical education (CME) using mobile technologies.

⁷ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loans and Administration of Grant to the Republic of the Philippines for Emergency Assistance for the Reconstruction and Recovery of Marawi*. Manila. <https://www.adb.org/projects/52313-001/main>. (L3768, L3769, G0635, G9201).

⁸ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant to the Socialist Republic of Viet Nam for the Second Health Human Resources Development Project*. Manila. <https://www.adb.org/projects/40354-017/main>. (L3764, G9200).

The project grant will develop, test, and evaluate 40 CME modules covering primary health care and women's health topics for possible replication by other registered training institutions and CME providers.

Viet Nam

Skills and Knowledge for Inclusive Economic Growth Project

Amount: \$3.0 million

The project grant is part of the Government of Viet Nam's continuing efforts to realign its TVET system by upgrading the teaching and learning environments of 16 national high-quality TVET institutes with up-to-date technology in training equipment to meet current and future labor market needs.⁹ The project grant complements these activities through skills training opportunities for disadvantaged communities and improving the soft skills of students, based on the needs of local communities and the demand from local companies.

The project aims to improve the quality of teaching and capacity of selected TVET institutions to develop demand-driven and mobile application-based short-term courses to reach remote areas. Upgrading vocational training equipment and providing new equipment will help in improving and introducing new training courses like information technology and computer skills, among others, and selecting programs that will appeal to women to open opportunities for skills enhancement and increased incomes. The institutions will also be assisted in integrating nontechnical skills into the regular curricula on communication, analytical thinking, teamwork, social and interpersonal skills, and entrepreneurial approaches. Existing community support programs will also be improved by requiring students with newly acquired skills to help communities improve their livelihood. Disadvantaged communities will also benefit from the implementation of basic TVET training programs that use portable vocational training equipment procured under the project.

TECHNICAL ASSISTANCE

Central Asia

Kazakhstan

Astana Integrated Water Master Plan

Amount: \$1.2 million

The project will formulate an integrated water resources management and master plan for Astana City, the capital of Kazakhstan, to ensure its water security amid increasing water demand from rapid urbanization and population growth.¹⁰ The plan will include investment programs and projects that will upgrade water supply and sanitation infrastructure, improve city drainage systems to mitigate flood risks, facilitate the use of stormwater and snow-melted water, and reuse treated wastewater. Integrated into the plan are policy recommendations to optimize water usage, tariff and cost recovery mechanisms, institutional reforms coupled with capacity building, and opportunities for public-private partnerships. A geographic information system-based data and water management information system will also be established as part of Astana's water management system.

Pakistan

Balochistan Water Resources Development Sector Project

Amount: \$2.0 million

The project will strengthen the institutional capacity of the Government of Balochistan to address climate change impacts and risks given increasing threats from climatic variability, extreme droughts, and floods.¹¹ It will assist the Irrigation Department and Agriculture Cooperatives Department in reviewing and updating relevant policies on integrated water resources management (IWRM), formulating draft laws and

⁹ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant to the Socialist Republic of Viet Nam for the Skills and Knowledge for Inclusive Economic Growth Project*. Manila. <https://www.adb.org/projects/49122-004/main>. (L3761, G9199).

¹⁰ ADB. 2018. *Technical Assistance to Kazakhstan for Astana Integrated Water Master Plan*. Manila. <https://www.adb.org/projects/51353-001/main>. (TA9376).

¹¹ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Grant to the Islamic Republic of Pakistan for the Balochistan Water Resources Development Sector Project*. Manila. <https://www.adb.org/projects/48098-002/main>. (L3700, G0597, G9197, TA9576).

regulations to enforce the updated IWRM policy and Groundwater Rights Ordinance, and preparing the water sector investment priority plan that integrates climate-resilient and sustainable water resources management mechanism. The project will also develop the water resources information system and provide specialized training for government staff to enhance their monitoring, planning, and implementation skills. Communities in project river basin areas and both female and male farmers will also be trained on the efficient use of water resources.

Turkmenistan

National Power Grid Strengthening Project

Amount: \$1.5 million

The project will assist the Ministry of Energy in preparing a strategy and road map for energy efficiency to attain a sustainable and efficient energy sector in Turkmenistan.¹² It will support the Ministry of Energy in formulating policies, laws, and regulations on energy efficiency and developing energy efficiency investment projects for public and private financing. With support from technical experts, knowledge and capacity on key project implementation will be strengthened for both the ministry and Turkmenenergo—the government’s state-owned power enterprise—on three areas of project implementation: engineering, procurement, and environmental safeguards. The project will also assist all state-owned enterprises in the adoption of International Financial Reporting Standards with training and capacity development.

East Asia

Mongolia

Improving Health Care Financing for Universal Health Coverage

Amount: \$1.0 million

Despite health reforms since 2005, Mongolia’s health services are still inadequate, access is inequitable, and out-of-pocket expenses are still high. The project will support the Government of Mongolia in developing a more efficient health insurance system.¹³ An assessment of the health sector’s hospital financing, regulatory framework, and purchasing practices or the allocation of funds to health service providers will be conducted and an integrated strategic purchasing system and road map will be developed for its introduction and implementation. The system will identify the health services to be provided, benefit packages, and corresponding costs and purchasing mechanisms for health services. The project will also help government agencies and health care providers to facilitate the implementation of the purchasing system, provide performance-based reporting using information and communication technology, and strengthen the Health Insurance Organization in its purchasing functions.

Mongolia

Human Settlements Development Program

Amount: \$2.0 million

The project will help the Government of Mongolia define its Human Settlements Development Program’s strategic directions to achieve an inclusive, green, competitive, and sustainable urban development.¹⁴ Provincial socioeconomic and spatial development plans for each of the 21 *aimag*

¹² ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Technical Assistance Grant to Turkmenistan for the National Power Grid Strengthening Project*. Manila. <https://www.adb.org/projects/49370-002/main>. (L3734, TA9637).

¹³ ADB. 2018. *Technical Assistance to Mongolia for Improving Health Care Financing for Universal Health Coverage*. Manila. <https://www.adb.org/projects/51386-001/main>. (TA9701).

¹⁴ ADB. 2018. *Technical Assistance to Mongolia for Human Settlements Development Program*. Manila. <https://www.adb.org/projects/51106-001/main>. (TA9666).

(provinces) will be formulated to cover planning and policy frameworks and smart growth drivers of change and development. The project will also contribute to the formulation of the national strategy and comprehensive development plan of Mongolia, in collaboration with the Japan International Cooperation Agency. The project will provide support to amend existing legislation like land law, urban construction law, urban redevelopment law, among others, to ensure the implementation of the national urban strategy. Capacity development on urban planning and development will be conducted for relevant government agencies through trainings and knowledge exchange and dissemination. Equipment to develop a web-based mapping platform and produce the provincial electronic atlases will also be provided.

Mongolia

Green Urban Planning

Amount: \$0.6 million

Mongolia's urban population has increased significantly over the past several decades. In 1950, only 20% of the population lived in urban areas. With a change in economic structure from central planning to a market-based economy in 1991, Mongolia experienced rapid rural–urban migration. In 2018, urban population represented 70% of the country's 3 million inhabitants, as compared to Asia's average urbanization ratio of 50%. To ensure that Mongolia's cities are safe, livable and sustainable, the project aims to strengthen the government's capacity to conduct green urban planning.¹⁵ This will be done through (i) research and analysis on international best practices and lessons on urban planning relevant to Mongolia's extreme weather; (ii) preparation of recommendations to update regulations, codes, norms and standards; and (iii) testing the recommendations on local master plans to be prepared for one *aimag* center and one to three *soum* (districts). Lessons learned will be disseminated and shared through seminars and knowledge briefings, to allow possible replication in other ADB Central and West Asia member countries.

South Asia

Bangladesh

Institutionalizing Gender Equality Practices in the Local Government Engineering Department

Amount: \$2.0 million

The project aims to strengthen the institutional capacity of the Bangladesh Local Government Engineering Department (LGED) of the Ministry of Local Government, Rural Government and Cooperatives to mainstream gender equality practices in all levels of LGED operations and deliver the commitments set out in the Gender Equality Strategy.¹⁶ This will be done by making the gender information and management system operational and training LGED's senior and field staff in gender mainstreaming practices and establishing coordination systems between LGED's Gender and Development Forum and district gender communities. The project will extend similar capacity development support to gender focal persons of selected infrastructure agencies and women staff of the Ministry of Women and Children Affairs in establishing a multi-stakeholder mechanism for monitoring of gender equality results of infrastructure development. Learning and knowledge sharing events will be organized on topics relating to international models of gender-inclusive infrastructure.

India

Madhya Pradesh Skills Development Project

Amount: \$2.0 million

The TA project is part of an investment project to support the Government of Madhya Pradesh in transforming its TVET system to create a skilled workforce by establishing a new advanced TVET institute of international standards, the Global Skills Park (GSP), and upgrading training facilities and equipment, including the curricula of 10 major industrial training institutes (ITIs).¹⁷

¹⁵ ADB. 2018. *Technical Assistance to Mongolia for Green Urban Planning*. Manila. <https://www.adb.org/projects/51100-001/main>. (TA9637).

¹⁶ ADB. 2018. *Technical Assistance to the People's Republic of Bangladesh for Institutionalizing Gender Equality Practices in the Local Government Engineering Department*. Manila. <https://www.adb.org/projects/51319-001/main>. (TA9575).

¹⁷ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Technical Assistance Grant to India for the Madhya Pradesh Skills Development Project*. Manila. <https://www.adb.org/projects/48493-002/main>. (L3710, TA9595).

The TA project will support start-up activities of GSP that require specialized expertise such as preparation of detailed operational plans, advanced agricultural training, and entrepreneurship development programs. It will also build the capacity of the Directorate of Skill Development, as implementing agency of ITIs' modernization, in developing reforms to effectively manage and implement the investment project, design a performance-based rating system linked to ITIs' incentive schemes, and identify short-term trainings targeting women and marginalized groups. A tracer study of ITI and TVET graduates will be conducted to generate baseline data for monitoring and evaluating project performance and designing electronic platforms that will provide IT-based information and career guidance. Knowledge sharing events will be organized as venues to disseminate innovative practices in skills training and TVET management across other states in India.

Sri Lanka

South Asia Subregional Economic Cooperation Port Access Elevated Highway Project

Amount: \$1.3 million

The project is part of a quality infrastructure cofinancing investment project of ADB and Japan International Cooperation Agency to construct an elevated toll highway between the New Kelani Bridge and Galle Face in central Colombo.¹⁸ This will alleviate traffic congestion, improve connectivity between the expressway network and Colombo's international port resulting in better logistic services for freight operations, and facilitate movement of goods to boost regional trade. To maximize the benefit of the highway project on trade logistics, the TA project will work with the Sri Lanka Customs Department (SLCD) to improve its current risk management system, standard operating procedures, and monitoring and review mechanisms and at the same time, capacitate SLCD officials to implement these improvements. The TA project will support further plans to upgrade SLCD's facilities with a feasibility study for a new customs inspection facility and formulation of the technical design and business case for an electronic cargo tracking system.

Regional

South Asia Subregional Economic Cooperation Regional Energy Cooperation

Amount: \$1.5 million

The TA project will formulate development master plans for cross-border power and gas trade under the South Asia Subregional Economic Cooperation's program on regional cooperation and integration for the energy sector, in line with its Operational Plan 2016–2025.¹⁹ The master plans will cover regional development strategies, road maps, priority investment project inventories, and harmonization of regulatory rules, standards, and safety management among the participating countries of Bangladesh, Bhutan, India, Maldives, Myanmar, Nepal, and Sri Lanka. The project will also support knowledge sharing and capacity building on advanced technologies, lessons learned, and problem-solving approaches on common issues and progress from other regional programs such as the Greater Mekong Subregion and Central Asia Regional Economic Cooperation, by conducting seminars and site visits.

Southeast Asia

Cambodia

Agricultural Value Chain Infrastructure Improvement Project

Amount: \$1.5 million

The agriculture sector in Cambodia is crucial to the economy as it accounts for almost 34% of its gross domestic product, inclusive of processing, transportation, and trade of agricultural products. Agricultural products are Cambodia's second-largest exports in raw form and value addition occurs in other countries. To capture the forgone economic opportunity and diversify the economy, it is important to strengthen the value chain of agricultural products.

The JPFR project will assist in designing the investment project on agricultural value chain infrastructure improvement by carrying out value chain analyses for

¹⁸ ADB. 2018. *Report and Recommendation of the President to the Board of Directors: Proposed Loan, Technical Assistance Grant, and Administration of Technical Assistance Grant to the Democratic Socialist Republic of Sri Lanka for the South Asia Subregional Economic Cooperation Port Access Elevated Highway Project*. Manila. <https://www.adb.org/projects/50299-001/main>. (L3716, TA9596, TA9597).

¹⁹ ADB. 2018. *Technical Assistance for the South Asia Subregional Economic Cooperation Regional Energy Cooperation*. Manila. <https://www.adb.org/projects/52070-001/main>. (TA9584).

selected agricultural products, conducting investment feasibility studies, and developing financing mechanisms targeting small and medium-sized enterprises and cooperatives in the agriculture sector, coupled with support on technical advisory, training programs on business planning, financial management, and partnerships with producers.²⁰ Project documentation according to ADB's requirements will be prepared, including support to incorporate climate change adaptation and mitigation measures in the design of public and private value chain infrastructure and facilities. National and local consultations will be conducted to ensure participation of a wide range of stakeholders, including female farmers from both public and private sectors.

Cambodia

Supporting Sustainable Integrated Urban Public Transport Development

Amount: \$1.5 million

The increasing trend in the population of Phnom Penh, Cambodia's capital, is expected to continue in the coming years. With improved economic growth, there has been a rapid rise in the number of vehicles, with a 350% increase in the number of registered vehicles from 2001 to 2012, while travel average speed decreased from 23 to 15 kilometers per hour over the same period. To address the worsening traffic conditions, the TA project aims to improve management of the urban public transport system.²¹

The TA project will formulate policy guidelines and planning toolkits to regulate planning, design, and implementation of an integrated urban public transport system that includes the proper use of public spaces near and around transport facilities and policies responsive to the needs of different segments of the population. Together with the Phnom Penh local government and Ministry of Public Works and Transport, the project will also identify candidate transport improvement programs and prepare preliminary feasibility studies of planned

or ongoing action plans included in the Comprehensive Urban Transport Plan. The project will conduct training to develop the capacities of transport authorities in the use of the system and carry out public awareness-raising workshops to promote transport safety, security, and efficiency. Communication programs targeting the population will also be developed.

Indonesia

Supporting the Advanced Knowledge and Skills for Sustainable Growth Project

Amount: \$1.2 million

The TA project will support the implementation of the Advanced Knowledge and Skills for Sustainable Growth Project, which aims to improve Indonesia's higher education system by upgrading four public universities that would provide high-quality and demand-based programs and training of TVET teachers.²² The TA project will introduce innovative features into the investment project by linking the universities with industries on research and education, measuring and monitoring quality and relevance of education and research, and collaborating with international partners and stakeholders. To further benefit the project on effectiveness of other pilot higher education programs, specifically on entrepreneurship and university-industry linkages, an assessment will be conducted to identify new skills for a new technology sector and improve employability. The TA project will also formulate a medium-term plan for higher education investment and a medium-term strategy plan on TVET education for teachers.

Indonesia

Building Inclusive Social Assistance

Amount: \$2.0 million

The project will support the expansion of the Government of Indonesia's conditional cash transfer program, the Family Hope Program (PKH), which is in Indonesia's National Medium-Term Development Plan for 2015–2019 that aims

²⁰ ADB. 2018. *Technical Assistance to the Kingdom of Cambodia for Preparing the Agricultural Value Chain Infrastructure Improvement Project*. Manila. <https://www.adb.org/projects/50264-001/main>. (TA9545).

²¹ ADB. 2018. *Technical Assistance to the Kingdom of Cambodia for Supporting Sustainable Integrated Urban Public Transport Development*. Manila. <https://www.adb.org/projects/51113-001/main>. (TA9503).

²² ADB. 2018. *Technical Assistance to the Republic of Indonesia for Supporting the Advanced Knowledge and Skills for Sustainable Growth Project*. Manila. <https://www.adb.org/projects/50395-007/main>. (TA9678).

to establish a social protection system that will reduce disparity and inequality.²³ PKH pays benefits to mothers and aims to reduce poverty and inequality through increased access to and consumption of basic services.

The project aims to build the operational and managerial capacity of PKH staff in the Ministry of Social Affairs in implementing the program and its family development session and supporting its expansion to the remote areas of Papua and West Papua and vulnerable groups of the elderly and people with disabilities. Specialized training programs will be designed to enhance the analytical, communications, and advocacy skills of PKH staff, field teams, and their local counterparts in other ministries and local governments. The project will prepare a technical report covering how to implement PKH expansion in remote areas and an assessment of transfers to vulnerable groups, together with recommendations on program improvements.

Indonesia

Impact of Adolescent Nutrition Support on Development Outcomes

Amount: \$2.0 million

One of the challenges that Indonesia is facing is the double burden of malnutrition, which is a coexistence of undernutrition and overnutrition in the same population and individuals, specifically the youth, aged 20–24, numbering 65 million (or 25% of total population) and 48 million adolescents aged 10–19. To support the Government of Indonesia's response to develop nutrition-enhancing programs and policies addressing adolescents, the project will conduct a nationwide and selected cities assessment to identify priority areas for nutrition interventions and their potential impacts based on international experience and local conditions.²⁴ Pilot-testing of identified and appropriate interventions will be carried out according to target beneficiaries, such as delivery of balanced diet in the school lunch

program for adolescents, nutrition education and support for poor street adolescents in Jakarta, preconception nutrition support for newlyweds, and distribution of multiple micronutrient supplements and healthy diet information for mothers-to-be. The results of the three impact evaluation reports on pilot nutrition interventions, publishable articles, and working papers will be disseminated and policy recommendations will be submitted to the government.

Philippines

Railway Project Implementation Support and Institutional Strengthening

Amount: \$2.0 million

In preparation for the construction of the new 51-kilometer railway line connecting Metro Manila to the Clark regional center and Clark International Airport in Central Luzon, the project will support the Department of Transportation (DOTr) of the Philippines in its institutional capacity building on early project preparatory, implementation, and management activities, including the development of the railway sector policy, regulatory, and institutional framework.²⁵

The JFPR project will finance consulting services to assist the DOTr in carrying out land acquisition, resettlement, and livelihood skills development for project-affected persons; conducting procurement activities; formulating and implementing a communication strategy; and operationalizing gender mainstreaming activities for all stakeholders. With the expected operation of the railway in 2022, a suitable regulatory framework and institution must be in place to ensure reliable, safe, and sustainable O&M of the railway system. A project management unit in DOTr will be established to provide the necessary trainings and support contract management for the O&M service provider.

Japan Fund for Poverty Reduction

Annual Report 2018

Since 2000, the Japan Fund for Poverty Reduction has extended direct grant assistance to the poorest and most vulnerable groups in developing member countries of the Asian Development Bank, while fostering their long-term social and economic development. This annual report presents the background and rationale, project implementation progress, and achievements of the fund for the period from 1 January to 31 December 2018. It includes general information and operational details about the fund's two financing modalities—project grants and technical assistance.

About the Asian Development Bank

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. Established in 1966, it is owned by 68 members—49 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance.
