Foreword

As with the previous editions, the ninth publication about Social Protection in Malta presents an insight into the different dimensions of the social paradigm and gives a national overview of the expenditure in Malta during the five-year period 2012-2016.

In 2016, Malta's social protection outlay totalled €1,678.7 million or 16.5 per cent of the GDP. In comparison to 2015, the outlay rose by €70.3 million while, as a percentage of the GDP, social expenditure dropped by 0.4 percentage points following a higher GDP growth.

Expenditure is examined in terms of functions. Benefits, on the other hand, are analysed by nature and type. Sickiness and Healthcare, Disability, Old Age, Family/Children are only a few of the functions analysed in this publication toward which expenditure is directed. Each variable is examined in a separate chapter and a comparison to other European Union Member States is then drawn at the end of each chapter.

This year's edition is incorporating a well-receptive publication on recipients of social security benefits living in Malta and Gozo, last published in 2013. This information is available in the final chapter of the publication, where data is categorised by district and locality.

My appreciation goes to the Public Finance Unit for its work in compiling and organising the information. I am also thankful for the assistance given by the Energy, Regional and Geospatial Statistics Unit for compiling the maps used in this publication.

I would also like to express my gratitude to the Ministry for the Family, Children's Rights and Social Solidarity for providing the necessary administrative source data.

I trust that this publication will serve as a useful tool to the different users particularly policy makers, researchers, the media and the general public.

ETIENNE CARUANA

Director General, NSO

01

SOCIAL PROTECTION

Social protection encompasses all interventions from public and private bodies intended to relieve households and individuals from the burden of a defined set of risks or needs, provided that there is neither a simultaneous reciprocal nor an individual arrangement involved. Social protection systems are crucial to reduce poverty levels and help people towards social inclusion.

Each country's social protection system is composed of policies and programs introduced to address certain risks against a person's well-being. Sickness, disability, old age and unemployment represent some of the social risks many people face in their lifetime and for which social protection systems aim to counteract. Each policy implemented is intended for different groups of people, with measures in place to help single parents, people injured at work, elderly or disabled persons living in care homes, and families making use of child care centres to mention only just a few examples.

Social benefits are grouped into schemes that are chosen, where possible, in such a way that they provide protection against a single risk or need. Hence, each scheme is aimed at a single specific group of beneficiaries. Furthermore, social protection schemes are involved with redistribution and not with production. In this way goods and services provided in kind to beneficiaries are considered to be produced by the institutional unit (or units) supporting the scheme in question.

The data on expenditure under the various social protection schemes contained in this publication are drawn up according to the ESSPROS Manual¹ issued by Eurostat. Generally, the objectives of ESSPROS are to provide a comprehensive, realistic and coherent description of social protection which:

- i covers social benefits and their financing;
- ii is geared towards international comparability; and
- iii is completely harmonised with other statistics, particularly the National Accounts, in its main concepts.

The social protection accounts presented in this study are a satellite account of National Accounts. This means that the data are compatible with National Accounts' publications and form an integral part of the workings of the macro-economic framework for the calculation of the GDP in terms of ESA 2010.

For each scheme, the social benefits are further classified under eight separate functions that, together, account for all the social risks that impact our human society. These functions are as follows:

- i **Sickness/Health care:** Income maintenance and support in cash in connection with physical or mental illness, excluding disability. Health care intended to maintain, restore or improve the health of the people protected irrespective of the origin of the disorder.
- ii **Disability:** Income maintenance and support in cash or kind (except health care) in connection with the inability of physically or mentally disabled people to engage in economic and social activities.
- iii **Old Age:** Income maintenance and support in cash or kind (except health care) in connection with old age.

1 2016 edition: <https://ec.europa.eu/eurostat/web/social-protection/methodology>

- iv **Survivors:** Income maintenance and support in cash or kind in connection with the death of a family member.
- v **Family/Children:** Support in cash or kind (except health care) in connection with the costs of pregnancy, childbirth and adoption, bringing up children and caring for other family members.
- vi **Unemployment:** Income maintenance and support in cash or kind in connection with unemployment.
- vii **Housing:** Help towards the cost of housing.
- viii **Social exclusion n.e.c.** (not elsewhere classified): Benefits in cash or kind (except health care) specifically intended to combat social exclusion where they are not covered by one of the other functions.

ESSPROS data is primarily covered under the Core System, where gross data covering social protection expenditure and receipts is recorded and collected on an annual basis by Eurostat from each EU Member State. Furthermore, two secondary modules are also compiled in ESSPROS; (i) the Net ESSPROS module that is similar to the Core System but also takes into consideration taxes and social contributions paid by the recipients of social protection benefits, and (ii) the Pension Beneficiaries module that reports the number of persons in receipt of one or more periodic social protection benefits that fall under specific pension categories.

Throughout this chapter the main features of Malta's social protection system are evaluated. The first section presents an overview of the total social outlay during the five-year period from 2012 to 2016, with data categorised by ESSPROS function and social protection scheme. A comparison with the rest of the EU is also provided. The second and third sections present similar studies from the perspective of the ESSPROS modules; (1) Net ESSPROS and (2) Pension Beneficiaries.

1.1 Gross Expenditure

During the year 2016, Malta's social protection outlay rose by €70.3 million in comparison to 2015 and amounted to €1,678.7 million. The main schemes to contribute to this rise in social outlay were Social Security Contributory Benefits (€44.0 million), Hospitals and Other Health Care Facilities (€23.3 million), and Care of the Elderly and the Disabled (€10.1 million). As a percentage of Malta's GDP, social outlay amounted to 16.5 per cent that reflected a 0.4 percentage point decline from 2015. The reported decrease was a result of the GDP recording a higher positive growth in 2016 than the corresponding increase reported under social protection expenditure.

Overall, twelve of the eighteen social protection schemes registered an increase in social expenditure. Conversely, a drop in Unemployment Assistance payments resulted in Social Security Non-Contributory Benefits registering the biggest decline of €11.7 million or 5.8 per cent. Further decreases were reported under Housing Authority Subsidies (€4.6 million), social assistance to Third Country Nationals and Refugees (€3.6 million), MDD/MSCL/MSY Voluntary Retirement Scheme (€0.4 million), Subsidies on Utilities (€0.2 million), and a minor decline in Energy Benefit (Table 1.1).

When comparing the eight ESSPROS functions, Old Age (€53.5 million) and Sickness/Health Care (€25.6 million) witnessed the biggest increases in social outlay. On the other hand, half of the eight functions reported drops in spending from 2015 with Family/Children (€8.0 million) and Housing (€4.6 million) recording the largest downturns (Table 1.2).

Chart 1.1 Social gross expenditure by ESSPROS function: 1995-2016

Chart 1.2 Social gross expenditure by ESSPROS function (as a percentage of GDP): 1995-2016

Close to two-thirds (63.4 per cent) of Malta's 2016 social outlay was paid out in cash, while the remaining share was used to cover various in-kind benefits provided as goods or services. The majority (88.2 per cent) of social spending was not subject to any form of means-testing, where 61.8 per cent of such spending was cash benefits. Non means-tested cash benefits formed the largest share of Malta's social protection expenditure as 54.6 per cent was classified under this category (Chart 1.3).

Chart 1.3 Social protection expenditure by type and means-testing: 2016

In comparison with the rest of the EU, Malta's social protection-to-GDP ratio of 16.2 per cent² for 2016 was 10.9 percentage points lower than the EU average (27.1 per cent) and ranked Malta in 24th place among the EU Member States. The highest and lowest ratios were reported by France (32.1 per cent) and Romania (14.4 per cent) respectively. Between 2015 and 2016, a higher GDP growth resulted in Malta exhibiting a decrease of 2.6 per cent in social protection outlay as a percentage of GDP, with the UK (5.2 per cent) registering the highest decline. On the other hand, Estonia (3.0 per cent) and Latvia (1.2 per cent) showcased the largest increases in social protection outlay-to-GDP ratio (Table 1.3).

² To facilitate country comparison, for certain tables Malta's data was obtained from the Eurostat website (link: <https://ec.europa.eu/eurostat/web/social-protection>). Due to recent backward revisions discrepancies from national sources may exist.

In 2016, more than half of the EU's social outlay was classified as non means-tested cash benefits (57.7 per cent). In comparison, 54.6 per cent of Malta's social protection fell under this category. At the other end of the spectrum, means-tested benefits-in-kind contained the lowest outlay with EU countries spending only a combined 5.1 per cent of their outlay on such benefits. Means-tested in-kind benefits accounted for 2.9 per cent of Malta's expenditure in 2016 (Chart 1.4).

Function-wise, the majority of the EU's outlay for 2016 was mainly distributed under Old Age benefits (40.1 per cent of total) and Sickness/Health Care benefits (29.5 per cent). Malta reported higher percentages for both these functions with 44.2 per cent of the social expenditure classified under Old Age and a further 33.0 per cent covering Sickness/Health Care related benefits. In contrast, Malta spent the least on Housing (0.9 per cent) and Social exclusion (1.3 per cent), on-trend with the rest of the EU whose joint outlay on these benefits totalled 4.2 per cent (Chart 1.5).

Chart 1.5 Function distribution (%) of social protection expenditure (Malta & the EU): 2016

1.2 Net Expenditure

The aim of the Net ESSPROS module is to compile the net social outlay, which is equal to the gross expenditure excluding any taxes and/or social contributions paid on cash benefits by recipients plus (where relevant) residual fiscal benefits. Such information is useful as it measures the impact of the fiscal system on gross social expenditure hence, allowing for a more accurate geographical comparison between the EU Member States.

The value of these taxes/social contributions is deducted from the respective benefits which they cover. In Malta's case, social benefits are only subject to taxes on income as national insurance (*bolla*) is not applicable to benefits. There are currently four schemes subject to taxation; (i) Social Security Contributory Benefits, (ii) Social Security Non-Contributory Benefits, (iii) Treasury Pensions and (iv) Sickness Days – Employers' Expenditure.

After deducting all social protection taxes paid by recipients on cash benefits, the net social outlay for 2016 totalled €1,645.5 million, a €72.2 million increase when compared to 2015 (Tables 1.4 – 1.5). Therefore, in 2016 €33.2 million was paid in social taxes that reflected a €1.8 million decrease from 2015. The majority (73.0 per cent) was recouped through benefits paid under the Social Security Contributory Benefits scheme (€24.2 million in total). The remaining taxes were obtained from Treasury Pensions (€6.2 million), Sickness Days – Employers' Expenditure (€2.5 million) and Social Security Non-Contributory Benefits (€0.2 million) (Table 1.6).

Notes:

¹ Social protection tax is equivalent to the tax amount paid on cash benefits.² GDP as per NSO News Release 139/2018.

By the end of 2015³, the EU28 net total stood at 25.4 per cent of the GDP, 0.1 percentage points higher than 2014. France (30.1 per cent) and Finland (28.1 per cent) recorded the biggest proportions of net outlay-to-GDP, while the smallest ratios were exhibited by Romania (14.0 per cent) and Latvia (14.2 per cent). Malta registered a 16.3 per cent net outlay-to-GDP ratio, placing fifth lowest among the EU Member States (Table 1.6).

3 The latest net social protection data available for other EU Member States.

Note:

EU 28 data excludes Poland for 2015, as figures are currently unavailable (denoted in table as :).

When compared to corresponding gross percentages (Table 1.3), it can be deduced that 2.21 per cent of the EU's social expenditure spent in 2015 was recouped in taxes or social contributions. The Netherlands (5.70 per cent) and Bulgaria (0.01 per cent) registered the highest and lowest percentages of social tax-to-GDP respectively, with Malta being closer to the latter with 0.37 per cent reimbursed in taxes (Table 1.8).

1.3 Pension Beneficiaries

The aim of the Pension Beneficiaries module is to calculate the total number of pension beneficiaries within the following seven pension categories:

1. Disability pension,
2. Early retirement benefit due to reduced capacity to work,
3. Old-age pension,
4. Anticipated old-age pension,
5. Partial pension,
6. Survivors' pension, and
7. Early retirement benefit due to labour market reasons

The above categories are further categorised by ESSPROS scheme, followed by whether they are means-tested or non means-tested, and by gender. Furthermore, the seven pension categories are classified under the following four ESSPROS functions:

1. **Disability:** Disability pension, Early retirement benefit due to reduced capacity to work
2. **Old Age:** Old-age pension, Anticipated old-age pension, Partial pension
3. **Survivors':** Survivors' pension
4. **Unemployment:** Early retirement benefit due to labour market reasons

In Malta, active pensions are classified under the following four categories: Disability pension, Old-age pension, Survivors' pension and Early retirement benefit due to labour market reasons. Malta's Pension Beneficiaries module is currently made up of the following four schemes:

1. Social Security Contributory Benefits
2. Social Security Non-Contributory Benefits
3. Treasury Pensions
4. MDD/MSCL/MSY Voluntary Retirement Scheme

By the end of 2016, 88,479 people obtained at least one type of pension with 57.2 per cent of them being males (50,601). This represents an increase of 2,314 pensioners from the previous year. Both male and female pensioners' registered increases of 1,363 and 951 persons respectively. No less than 65,697 persons (74.3 per cent of the total) received some form of Old Age type pension, followed by Survivors pensions (16,165), Disability pensions (7,718) and 216 former dockyard workers in receipt of the voluntary retirement benefit classified under the Unemployment function (Table 1.9 and Chart 1.7).

Chart 1.7 Pensioners by sex: 2007-2016

In 2015⁴, more than a quarter of the EU population (259 persons per 1000 population) received some form of pension, the same as the previous year. The Baltic nations Lithuania and Estonia reported the highest number of pensioners with 324 and 317 persons per 1000 population respectively. Malta reported the second lowest ratio of pensioners-to-population with 191 persons, with only Cyprus (162) registering a smaller ratio (Table 1.10).

4 The latest pension beneficiaries data available for other EU Member States.

Total⁵	49,238	36,927	86,165	50,601	37,878	88,479

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Notes:

¹ The Disability function contains the following pensions: Decreased National Invalidity Pension, Injury Pension, Increased Invalidity Pension, Invalidity Pension, National Minimum Invalidity Pension, Disability Pension and Severely Disability Pension.

² The Old Age function contains the following pensions: Decreased National Minimum Pension, Increased National Minimum Pension, Increased Retirement Pension, National Minimum Pension, Retirement Pension, Two-Thirds Pension, Age Pension, Blind Pension and Carers Pension.

³ The Survivors function contains the following pensions: Early Survivors Retirement Pension, National Minimum Widows Pension, Pensions of Widows with Children, Survivors Pension and Widows Pension.

⁴ The Unemployment function consists of a voluntary early retirement benefit offered to dockyard workers after the reconstruction of the shipyards in 2008.

⁵ As persons obtaining two or more pensions classified under different functions are only counted once, the total number of pensioners is not equal to the sum of the corresponding functions.

02

SICKNESS/ HEALTH CARE

The Sickness/Health Care function consists of all those benefits paid to persons during temporary periods of unemployment due to sickness or injury, and health care provided in the framework of social protection.

In 2016, 32.8 per cent of Malta's social expenditure was allocated under the Sickness/Health Care function, 0.1 percentage points higher than 2015. The vast majority of the €551.0 million spent in 2016 fell under the Hospitals and Other Health Care Facilities scheme (€453.1 million), almost ten times higher than the Sickness Days – Employers' Expenditure scheme (€46.3 million) that reported the second largest outlay for 2016 (Table 2.1).

Table 2.1 Sickness/Health Care gross expenditure by scheme: 2012-2016

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

2.1 Social Security Benefits

Sickness related benefits totalled €48.4 million in 2016, a drop of €0.4 million in comparison with the preceding year. This was made up of €40.8 million in Social Security Non-Contributory Benefits and €7.6 million in Contributory Benefits. Non-Contributory outlay was made up of Social Assistance benefits (€21.1 million), Medical Assistance (€18.3 million) and bonus payments (€1.4 million). On the other hand, Contributory spending was divided between Sickness Benefit (€6.3 million) and Injury Benefit (€1.3 million) (Table 2.2).

Note:

¹ For confidentiality reasons, Tuberculosis assistance expenditure has been included under the Leprosy assistance for 2013 and 2014.

By the end of 2016, sickness beneficiaries totalled 39,152 and were 118 more than 2015. Males made up the majority of persons in receipt of a sickness type benefit (21,458 persons). The Sickness Benefit reported the largest share of recipients with 20,317 beneficiaries or 51.9 per cent of the total. The non-contributory Sickness Assistance benefit registered the second largest number of recipients with 12,941 individuals. When compared to 2015, the Sickness Benefit recorded the largest increase in recipients with 970 more persons receiving this benefit. Conversely, the biggest drop in beneficiaries during 2016 was reported in Social Assistance with 674 less recipients (Table 2.3).

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Note:

Persons obtaining two or more benefits are counted only once, thus aggregates are not necessarily equal to the sum of the corresponding benefits.

During 2016, there were 85 persons per 1,000 population who were in receipt of a Sickness benefit. The Northern Harbour district counted the largest percentage of recipients, with 115.0 persons per 1,000 population. Conversely, the Northern district reported the lowest ratio with 69 recipients for every 1,000 of its inhabitants. Cospicua was the locality with the largest share of Sickness beneficiaries (164 recipients per 1,000 population) whilst Swieqi recorded the lowest proportion (23 recipients per 1,000 population) (Map 2.1).

Map 2.1 Beneficiaries of sickness benefits per 1,000 population by district, locality and sex: 2016

2.2 Hospitals and Other Health Care Facilities

In 2016, total government expenditure on medical care amounted to €453.1 million equivalent to 27.0 per cent of Malta's social outlay. In comparison to the other schemes, this ranks Hospitals and Other Health Care Facilities second in outlay behind Social Security Contributory Benefits (€712.2 million or 42.4 per cent of the total was spent during 2016 (refer to Table 1.1). Mater Dei Hospital reported both the highest share and largest increase for 2016 with €223.9 million spent that represented a €7.2 million rise from the previous year's €216.7 million. In comparison with 2015, a rise in outlay was reported under each item resulting in an overall increase of €23.3 million in 2016 (Table 2.4).

Source: Ministry of Health.

Notes:

¹ In 2014, the Average Bed Occupancy decreased as the normal Bed Complement of in-patient beds at MDH increased.² With the introduction of CPAS in 2014 certain investigations previously recorded on the Out-patient module of the PAS were not registered on CPAS but on other information systems. These amounted to approximately 100,000 events.³ Electronic prescriptions started being issued in 2016, with manual prescriptions being used concurrently.⁴ The number of distinct stock items dispensed is the number of different medicinal products available at different forms and dosages eg. Levetiracetam 1000mg tablets, Levetiracetam 500mg tablets and Levetiracetam 100mg/ml syrup count as 3 distinct stock items.⁵ The number of items dispensed is calculated as follows – if a patient contacts a pharmacy and is dispensed 3 boxes of Metformin and 2 boxes of Paracetamol, the number of medicinal products dispensed on that contact is 2.⁶ In September 2015, Oncology care moved from Sir Paul Boffa Hospital to Sir Anthony Mamo Oncology Centre. Furthermore the speciality of Haematology and Paediatric and Adolescent Oncology Care moved from Mater Dei Hospital to Sir Anthony Mamo Oncology Centre at the same time.⁷ This increase from 2012 to 2013 is mostly due to an increase in mean length of stay (LOS) for geriatric rehab (69.6 days in 2013 compared to 48.2 days in 2012. There was a slight increase in mean LOS in physical rehab as well from 39.7 days in 2012 to 42.6 days in 2013).

2.3 Sickness Days – Employers' Expenditure

Between them employers spent €46.3 million to cover employees who were absent from work due to illness or injury during 2016. Sick leave payments totalled €46.0 million, €2.6 million higher than 2015, while the remaining €0.3 million was allocated to injury leave. Together, these payments covered the 689,647 sickness days taken by employees in 2016. This exceeded the 676,064 days in 2015 (Table 2.6).

Table 2.6 Sickness days - employers' expenditure: 2012-2016

	2012	2013	2014	2015	2016
Expenditure (€ 000)	38,068	39,990	40,670	43,710	46,301

Source: Department of Social Security (DSS) Incapacity Report.

Note:

Expenditure on sickness days - employers' expenditure is underestimated since employers generally do not send medical certificates covering the first three days of sickness or injury as no benefits are received in return.

2.4 Other Schemes

Agenzija APPOGG offers social services at various hospitals, helping patients and their family members deal with the trauma suffered by the patient's medical condition and admission to hospital. In 2016, €1.1 million was contributed to these services reflecting a €0.1 million increase from the previous year. The largest number of clients was reported under the Mater Dei Hospital social work service scheme with 2,742 cases during 2016 (Table 2.7).

2.5 EU Comparison

In 2016, the EU allocated 29.5 per cent of its social outlay to Sickness/Health Care benefits. This represented a 0.5 per cent drop from 2015. Ireland's 38.1 per cent was the highest recorded share of Sickness/Health Care – to – total social outlay. This was 3.1 percentage points higher than Germany (34.9 per cent) and a further 1.5 percentage points more than Croatia (33.4 per cent). Conversely, the lowest three ratios were reported by Cyprus (18.5 per cent), Greece (20.5 per cent) and Denmark (20.6 per cent). Malta's ratio for Sickness/Health Care benefits ranked fifth highest in the EU with 33.0 per cent of its social expenditure used to cover these benefits in 2016 (Table 2.9).

A photograph of a person walking a light-colored dog on a leash. The person is wearing a light-colored t-shirt and blue jeans. The dog is wearing a black harness. The background is a blurred outdoor setting with a stone wall and a paved path. A large white number '03' is overlaid on a purple rectangular background that covers the center of the image.

03

DISABILITY

The Disability function mainly covers cash benefits paid to persons who are below the retirement age and unable to work because of a mental or physical disability. Any rehabilitation services, or other goods and services, provided specifically to disabled persons are also classified under the Disability function. However, medical care to disabled persons is not categorised under this function but instead falls under the Sickness/Health Care function.

Disability benefits formed 3.7 per cent of Malta's social outlay in 2016, highlighting a drop of 0.1 percentage points from 2015. Expenditure-wise, €61.5 million was spent on disability type benefits with 70.4 per cent of this total paid in social benefits. The Social Security Contributory Benefits scheme registered the largest share under the Disability function, with €24.9 million (40.5 per cent of the total) allocated to this scheme (Table 3.1).

Table 3.1 Disability gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

3.1 Social Security Benefits

During the months of 2016 a total of €43.3 million was paid in disability benefits, split into Contributory (€24.9 million) and Non-Contributory benefits (€18.4 million). The reported figures both represented an increase in outlay from 2015 for the schemes in question, with Non-Contributory disability benefits exhibiting a larger increase of €1.9 million than the €0.5 million rise showcased under Contributory disability benefits.

Contributory disability benefit payments mainly consisted of Pensions in respect of Invalidity (€22.0 million), while Disability Pensions/Allowance (€16.3 million) formed the vast majority of Non-Contributory payments (Table 3.2).

Source: Departmental Accounting System (DAS).

Disability benefit recipients amounted to 9,050 by the end of 2016, a rise of 191 persons from the previous year. Male recipients totalled 4,977 while females numbered 4,073. Contrasting sex ratios were shown between the contributory Pensions in respect of Invalidity and the non-contributory Disability Pensions/ Allowance. While for the former males outnumbered females by a ratio of 2:1, the latter contained a higher proportion of females to males at a rate of 1.5:1.

The National Minimum Invalidity Pension reported the largest cohort of beneficiaries with 4,021 people in receipt of the pension in 2016, followed by the Disability Pension (2,193) and the Disabled Child Allowance (1,304). In comparison to 2015, the highest increases and decreases in recipients were recorded by the Severely Disability (180) and National Minimum Invalidity Pensions (153) respectively (Table 3.3).

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Note:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

Disability beneficiaries represented the lowest share of social benefit recipients in Malta with 20 persons per 1,000 population in 2016. The Gozo and Comino district registered the highest proportion of 34 persons per 1,000 population, which was more than double the smallest percentage reported by the Northern Harbour district (15 persons per 1,000 population). In terms of localities the same scenario was evident with the Gozitan localities Xewkija (52 persons per 1,000 population) and Xaghra (38 persons per 1,000 population) recording the biggest ratios of disability beneficiaries-to-population, while the Northern Harbour towns Swieqi (six persons per 1,000 population) and Tas-Sliema (eight persons per 1,000 population) registered the lowest share of disability recipients. (Map 3.1)

Map 3.1 Beneficiaries of disability benefits per 1,000 population by district, locality and sex: 2016

3.2 Care of the Disabled

In 2016, the expenditure on care services provided by the Department of Active Ageing and Community Care in aid of persons suffering from some form of disability totalled €11.9 million in outlay. This represented a €1.0 million drop from the previous twelve months. The majority (€7.4 million) of the expenditure was used to finance the various services and training offered to disabled persons and their families at the Adult Training Centres. The remaining €4.5 million was split between support services provided by the Support agency (€3.2 million) and the National Commission for Persons with Disability (€0.9 million), with the final €0.4 million allocated to the expenditure item residential homes available to disabled persons (Table 3.4).

3.3 Other Schemes

The Personal Injuries Scheme, forming part of the Treasury Pensions system, provides financial compensation to persons who sustained an injury during World War II. In 2016, there were 19 persons in receipt of an allowance under this scheme that was three less than those recorded during 2015 (Table 3.5).

Services offered by non-profit organisations to disabled persons amounted to €5.7 million on outlay in 2016, a €0.2 million rise from 2015. More than eight-tenths of this expenditure was used to cover Accommodation (€2.4 million) or Rehabilitation services (€2.3 million) (Table 3.6).

3.4 EU Comparison

Disability benefits formed 7.4 per cent of the EU's social outlay during 2016, slightly higher than the 7.3 per cent reported in 2015. On a country-by-country basis, Denmark (13.1 per cent) reported the largest share of disability benefits-to-total social expenditure followed by Estonia (11.4 per cent), Croatia and Sweden (both 10.9 per cent). Malta's ratio of 3.6 per cent was the lowest among the EU Member States and less than half the EU average (Chart 3.1, Table 3.7).

04

OLD AGE

The Old Age function covers all interventions against the risks linked to retirement and ageing. These include pensions given to a person once they retire from the labour market, lodging in specialised retirement homes and any services provided to persons unable to independently care for themselves.

A significant proportion of Malta's 2016 social protection outlay (44.4 per cent) were spent on schemes classified under the Old Age function. As will be seen in this chapter, these expenses were mainly used to cover retirement pensions, with 71.8 per cent of the total Old Age outlay spent on the contributory retirement pensions and a further 12.8 per cent spent on service pensions paid by the Treasury department (Table 4.1).

Table 4.1 Old Age gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

4.1 Social Security Benefits

By the end of 2016, €562.8 million was spent to cover old age benefits, resulting in a €37.1 million rise from the preceding year. Therefore, no less than 33.5 per cent of the total social outlay, spent during 2016, was used to cover these benefits. The majority (€482.1 million) was used to pay recipients of the contributory Retirement Pensions, in which case the bulk of the outlay fell under the Two-Thirds Pension (€389.3 million). The remaining €24.4 million was used to cover the non-contributory Old Age Pensions with 91.6 per cent classified under the Age Pension (Table 4.2).

During the five-year period under review, old age pensioners have gradually increased from 59,189 persons in 2012 to 65,697 persons by the end of 2016. Between 2012 and 2016, persons in receipt of a contributory retirement pension rose by 6,131 while there were 430 more individuals receiving the non-contributory equivalent old age pensions. Close to three-quarters (74.8 per cent) of contributory pensioners were in receipt of a Two-Thirds Pension, while 5,329 out of 5,750 (92.7 per cent) of non-contributory pensioners obtained the Age Pension. Males made up 45,689 (69.5 per cent) of the total old age recipients in 2016 (Table 4.3).

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Note:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

In 2016, 14.1 per cent of Malta's population was in receipt of an Old Age type benefit. The Southern Harbour district reported the highest share of recipients with 17.0 per cent of its population receiving some form of Old Age beneficiaries. On the other hand, only 2.7 per cent of the Northern district's population obtained an Old Age benefit, the lowest among the six districts. At 28.9 per cent Mdina registered the highest ratio of Old Age beneficiaries – to – population, more than quadruple the lowest ratio reported by Mtarfa (6.9 per cent) (Map 4.1).

Map 4.1 Beneficiaries of old age benefits per 1,000 population by district, locality and sex: 2016

4.2 Care of the Elderly

Government expenditure for the accommodation of elderly persons in retirement homes constitutes the bulk of the €80.1 million spent on elderly and community care services. In 2016 €53.8 million was spent on the Home for the Elderly, resulting in a €7.0 million rise over the previous twelve months. A further €17.5 million was spent on various services offered to assist older persons in their daily lives, with the majority going towards Residential Care in Private Homes (€13.0 million).

The Senior Citizens Grant, payable since 2012 to persons over the age of 75 living in their own residence, made up a further €8.6 million of the total outlay. The benefit, initially only available to elderly persons over the age of 78 and paid to 13,323 persons, was extended in 2014 to include individuals from the age of 75 with beneficiaries totalling 29,600 by the end of 2016 (Table 4.5). The rise in beneficiaries was perfectly correlated with the corresponding rise in expenditure (Chart 4.1).

4.3 Treasury Pensions

Treasury pensions, paid in return for years of service in the public sector, amounted to €95.0 million or 5.7 per cent of the total social protection expenditure in 2016. This represented a €4.9 million increase from 2015, reflecting the rise recorded in civil pensions. Most pensioners receiving this benefit were males (84.8 per cent of the total), with all but 60 of them receiving a Civil Pension (Table 4.6).

4.4 Public Transport

Transport subsidies contributed by the government to compensate for the reduced fares paid by the elderly persons in possession of the Kartanzjan continued to rise in 2016. Bus Fare subsidies rose by €0.3 million from 2015 and totalled €3.5 million in 2016. Throughout the year 71,563 elderly persons made use of the Tallinja card introduced in July 2015 (Table 4.7). On the other hand, in 2016 subsidies covering the reduced fares offered to elderly persons using the Gozo Ferry service amounted to €1.7 million in 2016, reflecting a €0.2 million growth from the previous year. There were 324,224 tickets sold to eligible persons in 2016, a 9.8 per cent increase from 2015 (Table 4.8).

Notes:

Expenditure on Pensioners' Route Bus Subsidy is estimated.

¹ Figure represents tickets sold up to June 2015. Due to the migration to a new card system in July 2015, no data was available for the remainder of the year.

² Subsidy is overestimated as it takes into consideration all card swipes made during 2016. Hence, it does not exclude card swipes made with the same card during a 2-hour period (in which money is only extracted from the first swipe). Furthermore, daily and weekly payment limits are not being taken into consideration.

4.5 Other Schemes

In 2016, over €2.0 million was spent to cover non-profit making homes for the elderly, mostly falling under the Archdiocese of Malta. This represented an increase of €0.1 million from the preceding year (Table 4.9).

There were 2,842 persons benefitting from discounted telephone rentals in 2016, a slight drop from the 3,271 reported in the previous year. The corresponding subsidy spent to cover these reduced rents was €0.2 million (Table 4.10).

4.6 EU Comparison

In 2016, the Member States of the EU spent a combined 40.1 per cent of their social protection outlay to tackle the social risks associated with ageing, a drop of 0.1 percentage points over 2015. Countries who have adopted the Euro as their national currency contributed slightly below this average with 39.4 per cent allocated to Old Age benefits. This represented a 0.2 percentage point drop in Old Age expenditure. Three countries spent over half their social outlay on Old Age; Greece (54.9 per cent), Romania (50.3 per cent) and Portugal (50.2 per cent). On the other side of the coin, Ireland (31.4 per cent), Luxembourg (31.7 per cent) and Germany (32.2 per cent) were the three nations with the lowest ratio of Old Age-to-total social outlay. Malta spent 44.2 per cent of its total social expenditure on Old Age benefits during 2016, ranking in 10th place among the EU Member States (Table 4.11 and Chart 4.2).

05

SURVIVORS

The Survivors' function consists of all those benefits that are paid to the surviving relatives (widow/ers or children) of those persons who (usually) represented the main breadwinners in the family and have passed away.

In 2016, Malta spent €140.0 million, or 8.3 per cent of its total social protection outlay, on Survivors' type benefits. When compared to 2015 spending, a rise of €6.7 million was reported, reflecting the same increase reported by the Social Security Contributory Benefits scheme (Table 5.1).

Table 5.1 Survivors' gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹

% of social protection	9.5	8.9	8.6	8.3	8.3	-

Notes:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

0 indicates a negligible percentage.

5.1 Social Security Contributory Benefits

Social security contributory benefits accounted for 98.7 per cent of the total social expenditure spent under the Survivors' function and totalled €138.1 million in 2016. This may be further broken down into: €124.7 million allocated under Pensions in respect of Widowhood, €13.4 million covering bonuses paid to persons in receipt of a relative social benefit and the remaining €0.1 million spent on the Orphans' Allowance. In comparison to the previous year, both Pensions in respect of Widowhood and bonus paid reported increases of €6.3 million and €0.3 million respectively while a slight drop was registered under Orphans' Allowance (Table 5.2).

During 2016, there were 16,178 persons in receipt of Survivors' type benefits with the majority in receipt of a Survivors' Pension (7,845) or a National Minimum Widows' Pension (6,874). Since 2012, pensioners receiving the Survivors' Pension rose by 1,642 persons, in contrary to people in receipt of the National Minimum Widows' Pension with 507 less persons reported. Females made up the lion's share of beneficiaries, and by the end of 2016, they outnumbered male beneficiaries by a ratio of 68:1 (Table 5.3).

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Note:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

In 2016, the Southern Harbour district recorded the largest percentage of benefit recipients at 48 persons per 1,000 population. This was 13 persons higher than the corresponding share reported for the whole of the Maltese Islands (35 persons per 1,000 population). At the other end of the spectrum, the Northern district contained the lowest proportion of recipients, standing at 27 persons per 1,000 population. Hal Luqa (106 persons per 1,000 population) and Swieqi (15 persons per 1,000 population) were the localities that ranked highest and lowest respectively. In the case of Hal Luqa, the ratio is characterised by the presence of the Saint Vincent De Paul residence (Map 5.1).

Map 5.1 Beneficiaries of survivors' benefits per 1,000 population by district, locality and sex: 2016

5.2 Treasury Pensions

As was the case for the Survivors' social security benefits discussed in Section 5.1, females formed the majority of people currently receiving a Widows and Orphans Pension payable by the Treasury Department. By the end of 2016, 2,046 out of the 2,051 recipients were female. By the end of 2016 €0.5 million was spent on these pensions with a further €1.3 million in bonuses. Although when compared to the corresponding recipients the outlay might seem low, it should be noted that such pensions are paid over and above each recipients Social Security Pension and are not to exceed €76.87 per month¹ (Table 5.4).

Note:

¹ Includes pensions paid under the Widows and Orphans Pensions Act (Cap. 58) and Pensions Specially authorised in extraordinary cases (such as the death of a policeman whilst on duty).

5.3 EU Comparison

In 2016, the EU member states contributed 5.5 per cent of their total social expenditure on Survivors' benefits. The proportion was 2.1 per cent higher than 2015. As was the case for Old Age benefits (refer to Section 4.6), Greece reported the highest ratio of Survivors'-to-social protection benefits with 10.2 per cent. Spain (9.7 per cent) and Poland (9.3 per cent) also reported high ratios in relation to the EU28 average, while Malta ranked sixth with 8.3 per cent of its social protection benefits classified under the Survivors' function. Hence, Malta's total placed it 2.9 percentage points higher than the EU28 average. At the other end of the spectrum, two countries used less than 1.0 per cent of their social protection outlay on Survivors' benefits. These were the United Kingdom and Estonia (both 0.3 per cent).

Chart 5.1 Ratio of Survivors to total Social Protection (EU): 2016

A woman with brown hair is smiling and looking down at a piece of paper. She is holding a red pen in her right hand, which has a gold ring on the ring finger. The background is a blurred indoor setting. A large blue semi-transparent rectangle is overlaid on the right side of the image, containing the page number and title.

06

FAMILY/ CHILDREN

The Family/Children function includes cash benefits provided to households with children, various child care services available to families along with any other social services provided with the specific intention to assist families.

Family/Children benefits totalled €97.6 million by the end of 2016, a 5.8 per cent share of the total social protection expenditure. This represented an €8.0 million drop from the previous year; following a €9.1 million decline in Non-Contributory outlay (Table 6.1).

Table 6.1 Family/Children gross expenditure by scheme: 2012-2016

% of social protection	5.9	6.1	6.8	6.6	5.8	-

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

6.1 Social Security Benefits

In 2016, €72.1 million, or 73.9 per cent of the total function outlay, was spent on family related social benefits. The lion's share (93.2 per cent) was used to cover benefits falling under the Non-Contributory scheme, with €40.8 million spent on Child Allowance and a further €22.7 million covering Social Assistance benefits classified under the Family/Children function. In comparison to 2015, a downturn of €9.1 million was registered by Non-Contributory Family Benefits. The catalyst for this decline was the absence of the Child Supplementary Benefit in 2016, a one-time payment enacted by the government in September 2015 and paid to low-income families that amounted to €7.8 million of the total social outlay for 2015. On the other hand, Contributory Family Benefits rose by €0.1 million in 2016, the result of a similar increase reported under the Maternity Benefit (Table 6.2).

From a beneficiaries' perspective 47,832 persons benefitted from a family benefit in 2016, 1,625 less than the previous year. Females made up the majority of the recipients with 44,416 (92.9 per cent of the total). Furthermore, 42,825 persons were in receipt of a Child Allowance, with beneficiaries of the flat rate Children's Allowance exceeding those in receipt of the means-tested version by a ratio of 1.5:1 (Table 6.3). This contradicts the scenario shown in 2012, when means-tested Children's Allowance beneficiaries were greater than those receiving the flat rate (Chart 6.1).

Source: Department of Social Security (DSS) Unique Beneficiaries Report.

Notes:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

¹ As a breakdown is not available, the total beneficiaries are included under Social Assistance classified under the Sickness function (refer to Table 2.3).

For every 1,000 persons living in Malta in 2016, 104 of them were in receipt of a Family/Children type benefit. The South Eastern (120 persons per 1,000 population) and Northern Harbour (85 persons per 1,000 population) districts recorded the biggest and smallest shares of Family/Children beneficiaries-to-population respectively. The locality with the highest ratio of recipients was Mġarr at 290 persons per 1,000 population that represented 118 more persons than the second highest ratio exhibited by Xgħajra (172 persons per 1,000 population). Conversely, Tas-Sliema (45 persons per 1,000 population) and Mellieħa (51 persons per 1,000 population) registered the lowest proportions of Family/Children beneficiaries. (Map 6.1)

Map 6.1 Beneficiaries of family/children benefits per 1,000 population by district, locality and sex: 2016

6.2 Care of the Elderly

Child care services presented the largest share of outlay under the Social Welfare Standards scheme and representing 91.6 per cent of its total outlay under the Family/Children function. Since the inception of the 'Child Care for All' scheme in 2014, providing free childcare to parents/guardians who are either gainfully occupied or pursuing their education, social expenditure invested under the Social Welfare Standards scheme has quadrupled with €11.5 million spent on 'Child Care for All' in 2016 (Table 6.4).

As at September 2018, a total of 117 centres were registered under the 'Child Care for All' scheme with the majority found in the Northern Harbour (54). On the other hand, Gozo and Comino reported the lowest amount of registered child care centres with only two forming part of the scheme (Chart 6.2). Locality-wise, the largest numbers of child care centres offering free childcare may be found in San Ġwann (8), Msida and Hal Qormi (both 7).

6.3 APPOĠĠ

The social protection outlay spent to cover the various family services offered by APPOĠĠ totalled €4.4 million in 2016, highlighting a €0.4 million growth from 2015. Throughout the years Supportline 179 continued to be the most regularly used service, with close to 12,000 calls received in 2016, on issues involving situations such as child abuse, domestic violence and addiction problems. Other services usage ranged from 1,825 clients using the Intake and Family Support Service to just six children being referred for specialised home-based care as part of the Out of Home Care Services (Table 6.5).

Note:

Expenditure is estimated.

¹ In 2013 the data from the Generic and the Initial Response Services were amalgamated into the newly formed Intake and Family Support Service.

a. Clients may make use of the service several times in one year.

b. Clients may make use of the service after a number of years, e.g. came in 2011 and then again in 2012.

c. Clients may be making use of the services offered by the different units at the same time.

d. Within some units a case can involve more than one person e.g. family therapy which involves a whole family; in such circumstances one case is opened.

6.4 Other Schemes

There were 23,619 persons who received the Energy Benefit in 2016, a slight drop from the 24,382 persons reported in 2015. Expenditure totalled €4.7 million, or 0.3 per cent of the total social outlay, for both years (Table 6.6).

6.5 EU Comparison

Family/Children benefits amounted to 8.7 per cent of the EU's social expenditure in 2016, slightly higher than 2015. The ratio was slightly lower for those countries that have adopted the Euro (EA19) as their official currency with 8.2 per cent allocated to such benefits, 0.1 percentage points higher than the previous year. Luxembourg exhibited the highest rate of Family/Children benefits to total social outlay with 15.4 per cent contributed during 2016. This was 2.4 percentage points higher than Estonia which ranked second with 13.0 per cent and more than double that recorded by Malta (5.9 per cent). Malta's ratio ranked it 24th among the EU Member States with Greece and Netherlands (both 4.0 per cent) reporting the lowest proportion of Family/Children benefits to total social outlay (Table 6.8).

UNEMPLOYMENT

Benefits paid to either compensate an individual for the loss of his/her gainful employment or to cover the income (whole or partly) of persons who retire from employment prior to the statutory retirement age form the core of the outlay classified under the Unemployment function. Training programmes provided to unemployed people actively searching for employment are also classified under this function.

In 2016, 2.7 per cent of Malta's social outlay or €45.8 million was spent on the Unemployment function, a €2.1 million drop from the previous year. The catalyst for the decline was a €4.3 million drop in social payments (including bonus) forming part of the Social Security Non-Contributory Benefits scheme that was only partially offset by a €3.2 million rise in outlay covering training schemes offered by Jobsplus (Table 7.1).

Table 7.1 Unemployment gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

7.1 Social Security Benefits

Unemployment type social benefits totalled €28.1 million in 2016, which represented 61.4 per cent of the expenditure for the Unemployment function. The majority (€25.2 million) was used to cover benefits paid under the Non-Contributory scheme, specifically Unemployment Assistance (€10.3 million), Unemployment Assistance Taper (€8.4 million) and Subsidiary Unemployment Assistance (€6.5 million). In comparison to 2015, Non-Contributory Unemployment benefits decreased by 13.9 per cent following a €6.8 million downturn in Unemployment Assistance, highlighted by 1,218 fewer persons being in receipt of this benefit in 2016 (Table 7.3), and a €0.4 million drop in bonus payments. Conversely, the Unemployment Assistance Taper was the only benefit to report an increase in outlay with €3.0 million more spent over 2015.

Outlay covering Contributory Unemployment Benefits decreased from €1.7 million in 2015 to €1.3 million in 2016. Both the Unemployment Benefit and the Special Unemployment Benefit reported drops of €0.2 million in expenditure (Table 7.2).

Persons in receipt of an unemployment type benefit fell by 685 in 2016, with fewer beneficiaries reported under both the Other Benefits (487) and Total Social Assistance (298) schemes. Male beneficiaries totalled 6,573, close to double the number of females (3,415) (Table 7.3).

Note:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

There was 2.2 per cent of Malta's population obtaining at least one type of Unemployment benefit during 2016. The Southern Harbour district held the highest ratio with 35 recipients for every 1,000 persons, three times larger than that reported by the Western district (12 persons per 1,000 population). From a locality perspective, Żebbuġ (Gozo) (66 persons per 1,000 population) and Hal Lija (6 persons per 1,000 population) exhibited the largest and smallest ratios of Unemployment recipients – to – population respectively. (Map 7.1)

Map 7.1 Beneficiaries of unemployment benefits per 1,000 population by district, locality and sex: 2016

7.2 Employment and Training Corporation/Jobsplus

In 2016, there was an increase of €3.2 million in social outlay covering Jobsplus schemes. Total amount spent was €12.1 million, two-thirds of which covered cash benefits (€8.1 million). Following the reform of the Community Work Scheme in 2016, in which the Government started to pay the full rate of the minimum wage (instead of the previous 75%) to persons obtaining work experience, 'Other cash benefits' rose by €7.6 million. Conversely, in 2016 following the closure of the EU Fund Programming period 2007-2013, the EU funded spending on services provided by Jobsplus dropped to €4.0 million from the previous year's €8.5 million (Table 7.4).

7.3 Other Schemes

There were 23,619 families who successfully applied for a rebate on the water and electricity meter rent in 2016, 763 less than in 2015. In expenditure terms, €2.5 million was spent to cover this rebate and overall represented 0.2 per cent of Malta's total social outlay (Table 7.6).

7.4 EU Comparison

The EU contributed 4.6 per cent of its total social outlay on unemployment benefits in 2016, ranging from 10.1 per cent reported by Ireland to 0.6 per cent recorded by Romania. In comparison, 2.7 per cent of Malta's social spending was classified under the Unemployment function, a 0.3 percentage point drop over the previous twelve months and placing the country in 21st place among its EU counterparts (Table 7.8).

08

HOUSING

All interventions made by public bodies to aid households' housing costs form part of the Housing function. Included are subsidies on rent costs or rehabilitation works done by the person on their main dwelling, along with cash benefits given to plot owners looking to develop their land into a private residence.

Total Housing expenditure for 2016 amounted to €15.9 million or 0.9 per cent of Malta's overall social expenditure. This reflected a €4.6 million drop from the precedent year following a decrease in Housing Authority Subsidies, the only scheme whose outlay currently falls within the scope of the Housing function (Table 8.1).

Table 8.1 Housing gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹
€ 000						
Housing Subsidies ²	79	352	391	-	-	-
Housing Authority Subsidies	5,400	6,907	10,397	20,513	15,926	100.0
Total	5,479	7,259	10,789	20,513	15,926	-
% of social protection	0.4	0.5	0.7	1.3	0.9	-

Notes:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

² As of 2015, Housing subsidies transferred to Housing Authority subsidies.

8.1 Housing Authority

More than half of the outlay spent on subsidies offered by the Housing Authority in 2016 was allotted to the Costs of housing units sold (€7.7 million), followed by Subsidies on sales (€4.9 million), Grants (€2.9 million) and Interest subsidies (€0.4 million). In comparison to 2015, both Costs of housing units sold and Subsidies on sales reported drops in outlay of €3.3 million and €1.7 million respectively, while Grants rose by €0.4 million. In total, expenditure under the Housing Authority Subsidies scheme declined by 22.4 per cent over 2015 (Table 8.2).

Table 8.2 Housing Authority Subsidies: 2012-2016

8.2 EU Comparison

In 2016, EU Member States spent a combined 2.0 per cent of their social outlay on housing benefits, slightly lower than 2015 (2.1 per cent). Furthermore, the EA Member States contributed 1.5 per cent in 2016, which was equivalent to the previous 12 months. The United Kingdom's 4.9 per cent was the highest share of housing benefits-to-social expenditure reported in the EU. On the other hand, Bulgaria and Portugal both reported negligible ratios for housing outlay in 2015. Locally, Malta ranked 13th among the EU member states after 0.9 per cent of its social expenditure was contributed to the Housing function (Table 8.3).

09

SOCIAL EXCLUSION

Unlike the other seven functions that contain benefits clearly aimed at certain groups of people, the Social Exclusion n.e.c. function does not target a particular cohort but refers to benefits targeting the “socially excluded”. Benefits directed at, among others, low-income earners, migrants and refugees, and drug and alcohol addicts fall under the scope of this function.

The social protection outlay aimed at those persons at risk of social exclusion in Malta totalled €21.6 million or 1.3 per cent of the total expenditure for 2016. The biggest contributors to this function were the Social Security Non-Contributory Benefits (€7.8 million) and Third Country Nationals and Refugees schemes (€5.2 million). In comparison with 2015, Social Exclusion outlay fell by €1.4 million following a €3.6 million drop being reported under Third Country Nationals and Refugees scheme. This was offset by increases reported under Social Welfare Standards (€1.5 million) and Social Security Non-Contributory Benefits (€0.4 million) (Table 9.1).

Table 9.1 Social Exclusion gross expenditure by scheme: 2012-2016

Schemes	2012	2013	2014	2015	2016	Share of Scheme (2016) ¹
€ 000

Note:

¹ For each scheme, the share represents the percentage of social expenditure classified under each function. Refer to table 1.1.

9.1 Social Security Non-Contributory Benefits

Two social benefits are currently classified under the "Social Exclusion" function; the Drug Addicts and Supplementary Allowances, the latter paid to low-income earners. The Supplementary Allowance accounts for 99.5 per cent of the €7.8 million outlay spent in 2016. When compared to 2015, expenditure rose by 5.0 per cent following higher amounts being reported on this function allowances (Table 9.2).

Beneficiaries in receipt of a Supplementary or Drug Addicts Allowance totalled 24,313 in 2016, a drop of more than 600 persons from 2015. The majority of these beneficiaries were in receipt of the Supplementary Allowance (24,244). The number of female recipients (12,664) was slightly higher than that for males (11,649) (Table 9.3).

Source: DSS Unique Beneficiaries Report.

Note:

Persons obtaining two or more benefits are counted only once. Thus, aggregates are not necessarily equal to the sum of the corresponding benefits.

In 2016, Social Exclusion beneficiaries in Malta and Gozo amounted to 53 persons per 1,000 population, with Gozo (67 persons per 1,000 population) reporting a larger share of recipients than Malta (52 persons per 1,000 population). Among the six districts found in Malta and Gozo, the highest and lowest ratios of Social Exclusion recipients – to – beneficiaries were recorded in the Southern Harbour (84 persons per 1,000 population) and Northern (32 persons per 1,000 population) districts respectively. The Southern Harbour localities of Valletta (148 persons per 1,000 population) and Cospicua (142 persons per 1,000 population) ranked first and second respectively in regards to the ratio of Social Exclusion benefit recipients – to – population. Conversely, the localities with the lowest Social Exclusion shares were Swieqi (7 persons per 1,000 population) in the Northern Harbour district and Iklin (19 persons per 1,000 population) in the Western district. (Map 9.1)

Map 9.1 Beneficiaries of social exclusion benefits per 1,000 population by district, locality and sex: 2016

9.2 APPOĠĠ

Various services are offered at APPOĠĠ to help those persons who are at risk of being socially excluded from society, such as the Domestic Violence Unit (718 clients in 2016) that provides social work service to adults and children in abusive relationships, individual community services that aim to improve the quality of life in their respective communities, and the Helpline that handles calls from persons in need of emotional support due to challenging life situations they may be presently facing (273 reports received in 2016). Expenditure for these services totalled €1.7 million in 2016, a marginal increase from 2015 (Table 9.4).

9.3 SEDQA

SEDQA's services are specifically aimed at those persons suffering from addiction stemming from drugs, alcohol or gambling. These services range from counselling services for families with a member who is struggling with a substance problem to detoxification centres providing the necessary care and a safe process for one to free themselves from their addictions. In 2016, €2.3 million was spent to cover the services organised by SEDQA, a 2.2 per cent rise from 2015 (Table 9.5).

Notes:

¹ As of 2008, there was a change in data collection for these services and thus the figure does not represent the number of individuals throughout the year but the average number of clients in contact with the unit per month.

² Prior to 2013, this unit reported the number of family units. As of 2013 it amalgamated with the previous Appogg family service and began reporting the number of individual clients.

³ Prior to 2013, this unit reported the average number of cases worked with. As of 2013 it amalgamated with the previous Appogg psychological service and began reporting the number of individual clients

⁴ The service caters for clients who may have both a gambling and alcohol problem. Prior to 2009 the services were separated.

9.4 Other Schemes

A total of €2.1 million was spent to cover the services offered by the 11 LEAP centres⁵ currently found on the Maltese islands (Table 9.6). These services, classified under the Social Welfare Standards scheme, aim to reduce poverty and social exclusion among vulnerable individuals and families through the creation of educational and occupational opportunities. As of 2016, the service attempted to reach as many vulnerable persons as possible in order to reduce poverty among families.

In 2016, €2.6 million was spent on services provided by non-profit institutions to persons at risk of being socially excluded, with half of this amount covering support and counselling services (Table 9.7).

The social protection outlay towards Detention Services¹, providing safe and secure accommodations to immigrants, amounted to €5.2 million in 2016 or 0.3 per cent of the total social outlay. Following the 2016 decision to combine the Third Country Nationals item with Detention Services, the latter's expenditure rose by €1.2 million when compared to 2015. In spite of this, since Third Country nationals accounted for 54.1 per cent of the €8.7 million spent under the Third Country Nationals and Refugees scheme during 2015 then, overall, a drop of €3.6 million in outlay was reported by this scheme in 2016 (Table 9.8).

9.5 EU Comparison

In total, 2.2 per cent of the EU's social outlay in 2016 was contributed to the Social Exclusion function, 0.2 percentage points lower than the previous year. Cyprus' contribution was the highest among the EU with 6.6 per cent allocated under this function. This was 1.5 percentage points higher than second-placed Denmark and twelve times higher than Hungary, whose Social Exclusion allocation amounted to only 0.5 per cent of its total social expenditure, the lowest among the EU Member States. Malta's Social Exclusion-to-total social outlay ratio for 2016 was 1.3 per cent, 0.9 percentage points lower than the EU average and placing the country in 18th place among its EU counterparts (Table 9.10).

10

SOCIAL SECURITY BENEFITS

BY DISTRICT AND LOCALITY – 2016

To provide a more detailed overview of social security beneficiaries, beneficiaries were first categorised at district level (LAU level 1) and each beneficiary was then also grouped accordingly at locality level (LAU level 2). In order to illustrate the spatial distribution and magnitude of beneficiaries across benefit type, functions and LAU, the intensity was graphically represented per 1,000 population. All maps were defined into five categories. Furthermore, with the exception of expenditure, pie charts were inserted in every other map to highlight each district's sex ratio.

Overall, there were 165,815 persons in receipt of one or more social security benefits in 2016. In other words, 36.0 per cent of the population of Malta and Gozo was obtaining some form of social benefit. Females made up the majority of social benefit recipients in 2016 with 54.6 per cent. Persons in receipt of a Contributory benefit totalled 89,848 (19.5 per cent of the population) and outnumbered Non-Contributory beneficiaries that stood at 79,210 (17.2 per cent of the population).

The Southern Harbour district reported the highest share of benefits recipients where for every 1,000 persons living in that district 430 of them are obtaining some form of social benefit. Gozo and Comino ranked second with 395 beneficiaries per 1,000 population, followed by the Western (371 persons per 1,000 population), South Eastern (362 persons per 1,000 population) and the Northern Harbour (330 persons per 1,000 population) districts. The Northern district exhibited the lowest ratio of social recipients-to-population with 31.8 per cent of its population in receipt of at least one type of social benefit. Hence, when comparing the districts, the range between the highest and lowest shares of beneficiaries-to-population for 2016 stands at 11.2 percentage points.

The locality with the largest proportion of beneficiaries was Ħal Luqa (533 persons per 1,000 population), 39 more persons than second highest Floriana (494 persons per 1,000 population) with Valletta (477 persons per 1,000 population) placing in third. On the other hand, Swieqi ranked lowest among the 68 localities of the Maltese Islands with only 196 persons receiving a social benefit for every 1,000 of its inhabitants. The presence of institutional homes for elderly in certain localities may have an effect on the data (Table 10.1).

The ten highest and lowest localities in terms of beneficiaries per 1,000 population

Highest			Lowest	
1	Ħal Luqa	533	Swieqi	196
2	Floriana	494	St Julian's	246
3	Valletta	477	Tas-Sliema	270
4	Cospicua	477	Pembroke	272
5	Ħamrun	467	St Paul's Bay	280
6	Mdina	464	Birżebbuġa	283
7	Marsa	453	Iklin	290
8	Rabat	450	Gżira	293
9	Senglea	443	Msida	302
10	Vittoriosa	442	Mellieħa	304

Between 2008 and 2016, social security beneficiaries gradually rose by 13.4 per cent. All 6 districts registered an increase in beneficiaries with the Northern (5,000) and Northern Harbour (4,286) districts displaying the largest rises. As was the case in 2008, the Northern Harbour district continued to contain the largest cohort of beneficiaries with 47,399 persons (33.0 per cent of its population) living in that district in receipt of a social benefit.

In 2016, beneficiaries living in Malta and Gozo received on average of €4,823 from social security benefits. The Northern Harbour district listed the highest average social security benefits per beneficiary at €5,239, while the Northern district registered the lowest amount with beneficiaries residing in this district receiving on average €4,181 from social security benefits. At a locality level, social expenditure – to beneficiaries ranged from an average of €6,921 paid to Gudja recipients to €2,832 received by beneficiaries living in Ħal Ghaxaq.

1. The contributory scheme in Malta is a system where an employee, self-occupied or self-employed person pays a weekly contribution as laid down in the Social Security Act, through a 'pay as you go' system. This scheme is universal since it practically covers all strata of the Maltese society. All pensions and allowances payable under this scheme are subject to some form of a contribution test depending on the type of benefit claimed.
 2. The non-contributory scheme was originally intended to cater for those below the 'poverty line'. It has over a period of years evolved into a comprehensive scheme with a number of provisions that can provide simultaneous coverage in those cases where more than one contingency is present, such as in the case of persons with a disability as well as in the case of single parents.
 3. Health: This scheme covers the Maltese health care system as operated by means of an integrated health service that is organised at the national level. Parliament is responsible for enacting health care legislation and for approving the health care budget. Although a number of ministries have a health-related function, most decisions regarding health care are taken at the level of the Ministry for the Family and Social Solidarity.

4. The Department of Social Welfare Standards offers services in social work that aim at favouring a better mutual adaptation of individuals, families, groups and the social environment in which they live, and developing their self-respect and self-responsibility.
5. The data covering the NPISH sector is based on information from a specific survey, as well as from the financial statements of the more prominent components of this sector. The functions covered under this scheme are:
 - Sickness/Health care (Various services offered by non-profit institutions to sick people. Some of these institutions provide support, while others collect funds to help people that suffer from cancer and other illnesses);
 - Disability (provision of rehabilitation and other services to help the disabled offered by the various NPISH);
 - Old Age (offering non-profit homes for the elderly, the major part covered by the Archdiocese of Malta);
 - Family/Children (Child day-care centres and homes for children. The majority of these homes are provided by the Archdiocese of Malta. This function includes also various counselling and support services for children and their parents);
 - Other Social Exclusion (This function includes provision of accommodation to sufferers from domestic violence, rehabilitation services for alcohol and drug abusers, as well as support and counselling services for drug and alcohol abusers, victims of crime, prisoners, and help given to poor people).
6. In 1994 the APPOĠĠ (originally called Social Welfare Development Programme) was set up by the then Ministry for Social Policy. It was set up by the Cabinet of Ministers to work for the improvement of the social welfare sector as well as community development, with particular emphasis on children.
7. SEDQA agency was mandated by a Cabinet decision to provide prevention and care services in order to increase awareness and treat drug and alcohol abuse. The objective of this agency is to plan and recommend developments and updates of the national policy in the field of drug and alcohol abuse and to provide services in health promotion, prevention, treatment and rehabilitation to persons with drug and/or alcohol problems (and their families) in order to help them live a healthier life and to integrate better in society.
8. The Employment and Training Corporation provides training programmes and gives training allowances to unemployed persons who are seeking employment. In June 2016, an act of Parliament brought about the change in name to Jobsplus, as part of a wider branding strategy aimed at positioning Jobsplus as an innovative and dynamic organisation that satisfies the labour market demands of employers, jobseekers and employees.

9. **Sickness Days – Employers’ Expenditure:** This scheme covers employer’s expenditure made with regards to employees who are on sick or injury leave:
- (i) **Sick leave:** These consist mainly of wages and salaries paid by employers during periods of sick leave. According to local legislation, full pay must continue to be paid during the first three days of sick leave. Subsequently, sick leave pay is financed partly through social security benefits paid by the Social Security Department, with the shortfall being contributed by the employer. Depending on specific employee-employer arrangements, the employer will, after an established period of time, proceed to cover 50 per cent of the salary. At a later point, the employer may be relinquished from his/her obligations to pay any salary to employees on long-term sick leave. Administrative sources from the Department of Social Security provide data covering the first three days of sick leave, as well as the total number of sick leave days taken. The average daily wage, based on the National Accounts estimates available at the NSO was used to arrive at the final level of imputed benefits. The cost is underestimated since employers generally do not send medical certificates which cover the first three days of sickness since they receive no benefits in return.
 - (ii) **Injury leave:** All employees are entitled to a maximum period of one year injury leave on full pay, less the full amount of any injury benefit to which such employee may be entitled in terms of the Social Security Act, if s/he is injured during the actual discharge of his duty and not due to contributory negligence on her/his part or to any contravention of safety rules laid down by the employer. As in the case of sick leave, the first 3 days of absence from work are paid by the employer. Administrative sources from the Department of Social Security provide data covering payments made by the employer during periods of injury leave.
10. **Subsidies on Utilities:** Subsidised telephone rent is offered to elderly people who are in possession of the pink form and are on social assistance. Water and electricity rebates awarded to domestic households whose head is benefiting from social assistance. These rebates are in the form of a waiver on the meter rents (both water and electricity), as well as a reduction in the consumption charge for water.
11. **Energy Benefit:** All those who are in receipt of Social Assistance, Unemployment Assistance, Supplementary Allowance, Carer’s Pension, Old Age Pension and those who benefit from water and electricity meter rebates are eligible to receive a voucher which is redeemed when the bill is paid. The number of Energy Benefit beneficiaries is taken to be equal to the number of water and electricity meter rebates recipients.
12. **Housing Subsidies:** The benefits falling under this scheme are issued by the Ministry for the Family and Social Solidarity, and include subsidies on the interest paid by members of the public on loans obtained to purchase housing units, and subsidies on rents. These benefits are not aimed towards engaged couples. As of 2015, the Housing Subsidies scheme became inactive with its benefits being transferred to the Housing Authority Subsidies scheme (see 13 below).

13. Housing Authority Subsidies: The Housing Authority subsidises the interest paid by members of the public on loans obtained to purchase housing units from the Authority and to build on land leased from the Authority. The Housing Authority also subsidises the cost of housing units, plots and ground rents to members of the public. Grants are also given on various schemes offered by the Authority.
14. Bus Fare Subsidy: Subsidies to (i) pensioners (in possession of the *Kartanzjan* card), (ii) disabled persons in possession of the Blue Badge or Special ID Card issued by the National Commission Persons with Disability and (iii) children between the ages of 4 and 10 (both inclusive) on route bus fares.
15. Pensioners' Gozo Ferry Boat Subsidy: Subsidies to pensioners (in possession of the *Kartanzjan* card) on Gozo Channel Co. Ltd. ferry boat trips.
16. Care of the Elderly and the Disabled: The scheme covering the Elderly function is composed of non means-tested Old Age as well as Disability benefits. Services such as the Adult Training Centres (which provide resources, services, training and other forms of support that enable persons with disability, and their families, to form an integral part of society) are included within this function; although the bulk of expenditure under this scheme covers 'homes for the elderly'.
17. Treasury pensions: This scheme covers several programmes as follows:
 - i Pensions, Allowances and Gratuities under Pensions Ordinance and rules previously in force;
 - ii Pensions and Allowances under the Widows' and Orphans' Pensions Act;
 - iii Pensions and Allowances under the Personal Injuries (Emergency Provisions);
 - iv Allowances under Act XVII of 1966 (Members of Parliament Retiring Allowances Act, 1966) and pensions under Act XXVI of 1979 (Members of Parliament Pensions Act, 1979) as amended by Act XIII of 1981;
 - v Pensions specifically authorised;
 - vi Cost of Living Bonus to retired Members of Parliament and Civil and Police pensioners;
 - vii Cost of Living Bonus to widows and orphans under the Widows' and Orphans' Pensions Act;
 - viii Bonus to Government pensioners.
18. MDD/MSCL/MSY Voluntary Retirement Schemes: This monthly retirement benefit which is directly linked to the number of service years is payable under this scheme until the beneficiaries attain the age of 61, when the normal retirement pensions become available.
19. Third Country Nationals and Refugees: This vote covers recurrent expenditure in connection with the stay of irregular immigrants in Malta. Costs covered include the provision of food, medical services, maintenance of temporary shelter and surveillance by the Armed Forces of Malta. It should be noted that the NSO takes into account only part of the AFM information.

Methodological Notes

Social Security Contributory Benefits (*applies to Chapters 3, 4 and 5*)

1. Persons in receipt of any of the following Contributory Benefits or groups of benefits:

- i Pensions in respect of Invalidity,
- ii Pensions in respect of Retirement,
- iii Pensions in respect of Widowhood, or
- iv Orphans' Allowance,

are also paid by the Department of Social Security (DSS) the special weekly bonus of €4.66 per week and the statutory bonus of €135.10 payable every six months. For each reference year, aggregated figures are provided by the DSS that are then allocated between the abovementioned benefits. For each benefit listed under (i) to (iv), the amount of bonus apportioned is computed through the following equation:

$$\text{Total Bonus outlay} \times \frac{\text{Benefit outlay}}{\text{Total Contributory Benefits (subject to bonus)}}$$

2. In addition to the special weekly bonus and statutory bonus mentioned in point 1, any person in receipt of a contributory pension (benefits (i) to (iii) in point 1) are also eligible to receive the COLA (2016 weekly rate: €1.75). For each reference year, the total COLA paid is provided by the DSS and is then apportioned between each type of pension by using the following equation:

$$\text{Total COLA outlay} \times \frac{\text{Pension outlay}}{\text{Total Contributory Pensions}}$$

Social Security Non-Contributory Benefits (*applies to Chapters 2, 3, 4, 6 and 7*)

3. Persons in receipt of any of the following non-contributory benefits or groups of benefits:

- i Old Age Pensions,
- ii Disability Pensions/Allowance,
- iii Total Social Assistance, or
- iv Leprosy Assistance

are also paid by the Department of Social Security (DSS) the special weekly bonus of €4.66 per week and the statutory bonus of €135.10 payable every six months. For each reference year, aggregated figures are provided by the DSS that are then allocated between the abovementioned benefits. For each benefit listed under (i) to (iv), the amount of bonus apportioned is computed through the following equation:

$$\text{Total Bonus outlay} \times \frac{\text{Benefit outlay}}{\text{Total Non-Contributory Benefits (subject to bonus)}}$$

4. In addition to the special weekly bonus and statutory bonus mentioned in point 1, any person in receipt of a non - contributory pension (benefits (i) to (ii) in point 1) are also eligible to receive the COLA (2016 weekly rate: €1.75). For each reference year, the total COLA paid is provided by the DSS and is then apportioned between each type of pension by using the following equation:

$$\text{Total COLA outlay} \times \frac{\text{Pension outlay}}{\text{Total Non-Contributory Pensions}}$$

APPOĞĞ (applies to Chapters 2, 3, 6 and 9)

5. For each reference year, the total expenditure for APPOĞĞ is obtained from its management accounts. As the scope of different services classifies them under different functions (Sickness, Disability, Family/Children and Social Exclusion n.e.c.), a pre-established ratio calculated from previous years is applied to allocate the total expenditure among the respective functions.

Non-Profit Institutions Serving Households (applies to Chapters 2, 3, 4, 5, 6, 7 and 9)

6. National Accounts data is used to obtain the total expenditure covering services provided by non-profit organizations. As the scope of these services classified them under seven of the eight functions (the sole exception being Housing), a pre-established ratio calculated from previous years is applied to allocate the total expenditure among the respective functions.

Sickness Days – Employers’ Expenditure (applies to Chapter 2)

7. For every employee, the first three days of sick leave are paid in full by their employer.

8. From the fourth day onwards, the DSS pays the Sickness Benefit to the employee. However, the employee will continue to receive his/her full salary either all from the employer or partly from the employer and partly from the DSS.
9. Since no official data on the total amount paid by employers to cover sick leave is currently available, the figure is instead estimated by using the number of medical certificates that are collected by the DSS.
10. The medical certificates are used to aggregate the number of sick days taken from work during the reference year in question.
11. The number of days is then multiplied with the average wage calculated from National Accounts data. The resulting figure is taken as the estimate for the total amount paid by employers in sick leave.
12. As not every employer submits medical certificates of 3 days or less to the DSS (as they receive no benefits in return), the total sick leave paid is underestimated.

Bus Fare Subsidy (*applies to Chapters 3, 4 and 6*)

13. Retired persons in possession of the *Kartanzjan*, children between the ages of 4 and 10, and disabled persons in possession of a Blue Badge or Special Identity Card issued by the National Commission Persons with Disability pay a reduced fare when using the public transport system.
14. Data obtained from Transport Malta is used to calculate the annual number of subsidized tickets sold or, as of 2015, the number of *tallinja* card swipes by persons falling under any of the cohorts mentioned in point 13.
15. For each reduced bus fare, the subsidy is calculated by deducting the price of the subsidized fare from the standard price. The resulting amount is then multiplied with the total number of card swipes for that specific type of card, to obtain an estimate for the total subsidy paid.

Subsidies on utilities (*applies to Chapter 4*)

16. Elderly persons over the age of 60 in possession of a valid Pink Form as issued by the DSS and who have a fixed GO Plc telephone service, not part of any contracts or GO offers, pay a discounted rental charge for their residence direct telephone line.
17. To estimate the total subsidy paid on the telephone rebate, the different between the standard rate (€13.99) and the reduced rate (€2.49) is multiplied with the number of persons benefitting from the rebate. The latter figure is obtained from the Department of Active Ageing and Community Care.

Pensioners' Gozo Ferry Boat Subsidy (applies to Chapter 4)

18. Elderly person over the age of 60 and in possession of the *Kartanzjan* are eligible to use the Gozo Ferry at a subsidized rate.
19. For each reference year, the total number of tickets sold to *Kartanzjan* holders is obtained from Gozo Channel Ltd. The data is categorized into the following five types of tickets available to elderly persons:
 - i Gozitan Resident Foot Passengers – *Kartanzjan*
 - ii Maltese Resident Foot Passengers – *Kartanzjan*
 - iii Maltese Resident Car plus Driver – *Kartanzjan*
 - iv Gozitan Resident Car plus Driver – *Kartanzjan*
 - v Gozitan Resident Motorcycle plus Rider fare – *Kartanzjan*
20. For each type of ticket, the subsidy is calculated by first deducting the reduced fare from the standard fare paid by other passengers and then multiplying the difference with the total number of tickets sold.

Social Security Benefits by district and locality (applies to Chapter 10)

21. Actual Beneficiaries: The actual number of beneficiaries for a particular social benefit in the reference year, for a particular locality or region. It is also represented as per 1,000 of population.

For every region or locality:

$$\text{Actual Beneficiaries per 1,000 pop} = \frac{\text{No. of Beneficiaries}}{\text{Total Population}} \times 1,000$$

22. Expected Beneficiaries: The estimated number of beneficiaries for a particular social benefit in the reference year, for a particular locality or region. The expected number is calculated using the national average number of beneficiaries.

$$\text{National Average Number of Beneficiaries} = \frac{\text{No. of Benefit Beneficiaries}}{\text{Total Population}}$$

For every region or locality:

$$\begin{aligned} & \text{Expected Beneficiaries} \\ &= \text{National Average No. of Beneficiaries} \times \text{Population} \end{aligned}$$

23. Ratio of Actual/Expected: This ratio shows whether the locality or region is below or above the average number of national beneficiaries. A ratio above 1 indicates that the region or locality has a higher number of beneficiaries than the national average. A ratio below 1 indicates that the region or locality has a lower number of beneficiaries than the national average. The ratio can be calculated by dividing the Actual Number of Beneficiaries by the Expected Number of Beneficiaries.
24. Percentage Share of Beneficiaries: The number of beneficiaries residing in a locality as a percentage of total beneficiaries. A person who receives more than one benefit is counted once. This is only applicable for the last table in this publication.
25. Population: The total number of persons living in the Maltese Islands.
26. Expenditure: The amount of expenditure incurred on a particular benefit accruing to particular region (beneficiaries residing abroad are not included).
27. Total Expenditure: The total amount of expenditure covering all social benefits plus the contributory and non-contributory bonus accruing to a particular locality (beneficiaries residing abroad are not included).
28. Expenditure per Beneficiary: The amount of expenditure incurred per locality divided by the number of unique beneficiaries residing in that locality.
29. Beneficiaries are grouped according to their ID number. If a person received a particular benefit more than once in a calendar year, the records show one beneficiary.
30. Numbers of beneficiaries do not include Maltese persons living abroad.
31. For confidentiality purposes, expenditure amounts for regions containing up to two persons are not shown.
32. The total benefits expenditure does not match with the Treasury's Departmental Accounting System (DAS) as the source used throughout Chapter 10 is the System for the Administration of Social Benefits held by the Department of Social Security.

Glossary

BENEFITS IN KIND

Benefits in kind are benefits granted in the form of goods and services.

CASH BENEFITS

Social cash benefits may be income-substituting benefits such as unemployment cash benefits or pensions, and/or income-supplementing cash benefits such as housing benefits and child allowances.

CARE AND REPAIR

This service is intended for disadvantaged people on very low income who find it difficult to acquire assistance through schemes. In contrast to schemes where the applicants have to liaise with contractors to get the repair works done, under the care and repair initiative, it is the Housing Authority that co-ordinates with the contractors on behalf of the beneficiaries. This is done to avoid unnecessary nuisance to clients who are in a vulnerable position.

ESA 2010

The European System of National and Regional Accounts (ESA 2010, or simply ESA) is an internationally compatible accounting framework for a systematic and detailed description of a total economy, its components and its relations with other total economies. ESA 2010 is fully consistent with the revised worldwide guidelines on national accounting, the System of National Accounts (SNA 2008, or simply SNA; these guidelines have been produced under the joint responsibility of the United Nations, the IMF, the Commission of the European Communities, the OECD and the World Bank).

ESSPROS

The European System of integrated Social Protection Statistics (ESSPROS) was developed in the late 1970s in response to the need for a specific instrument of statistical observation of social protection in the EU Member States.

GROSS DOMESTIC PRODUCT (GDP)

Gross Domestic Product (at current market prices unless otherwise specified) is the total output produced within a country during a reference period.

HOUSEHOLDS

A household consists of individuals living together and sharing the household economy.

MEANS-TESTED SOCIAL BENEFITS

Social benefits are broken down between means-tested and non means-tested benefits. Means-tested social benefits are social benefits that are explicitly or implicitly conditional on the beneficiary's income and/or wealth falling below a specified level. Most means-tested benefits are targeted at low-income households; and in principle means-tested benefits may be granted under all functions.

NPISH

These are 'non-profit institutions serving households' which comprise all resident non-profit institutions that provide most of their output to households free or at prices which cover less than 50 per cent of production costs, except those which are controlled and mainly financed by government.

OTHER BENEFITS

Blind Pension: A person who is certified by a Medical Panel as suffering from a visual impairment may be eligible for a Pension for the Visually Impaired.

Children's allowance: is payable to locally residing citizens of Malta who have the care of children under 16 years of age, or children over 16 but under 21 who are attending full-time education, or training in an educational institution recognised by the government according to the Education Act and who is not receiving any form of remuneration or allowance or is registered unemployed under the Part 1 register and has never been gainfully occupied. The allowance is also payable to citizens who have children between 16 and 21 years of age and who are registered as unemployed under Part 1 of the Register in accordance with Employment and Training Services Act and who have never been gainfully occupied, and who is not receiving a benefit, pension or assistance payable under the Social Security Act. The rate of allowance payable is determined according to the citizens' annual income, with a maximum possible allowance of €5,477. If the annual income exceeds a certain pre-defined threshold, then a flat rate of €450 is paid out annually to those eligible citizens.

Child Supplementary Benefit is payable to families whose annual income is below a stipulated amount, and who have children under the age of 23 living with them. To be eligible for the benefit, each child under the age of 16 needs to have attended school for not less than 95% of the previous scholastic year. On the other hand, children older than 16 need to either be attending school, registering for unemployment or be involved in the Youth Guarantee Scheme, training for employment.

Contributory Bonus is payable to persons receiving a pension for services rendered in Malta, or ex-British Service pensioners, or persons between 62 to 74 years of age who have paid a minimum of 50 social contributions but do not receive a contributory pension, or persons over 75 years of age who receive a service pension from any other source, or persons who were born before 1902.

Disabled Child Allowance: May be granted to any child (under the age of 16) certified to be suffering from some kind of physical and/or mental disability. This allowance is over and above the Children's Allowance. **Disablement Gratuity:** A lump sum payment payable to a person following injury at work and where the degree of disability is estimated as being between 1 and 19 per cent.

Drug Addicts Allowance: Given to a person following a drug or alcohol rehabilitation therapeutic programme who may become eligible to receive an allowance.

Foster Care Allowance: Payable to a person or married couple certified by the Director of Social Security, Appogg, that they are the official foster carer/s of a child.

Injury Benefit: This benefit is payable for injury at work or contraction of industrial disease. Maximum entitlement is limited to 12 months.

In-Work Benefit: Payable to the following groups of people:

- a couples who are both in employment and whose annual combined earnings from a gainful occupation is between €10,000 and €20,400, and neither of their respective earnings are lower than €3,000 and they have children under the age of 23 living in the same address;
- b couples where only of the spouses/partners is in employment and whose annual earnings from a gainful occupation is between €6,600 and €13,000 and they have children under the age of 23 living in the same address; and
- c single parents whose annual earnings from a gainful occupation is between €6,600 and €15,000 and who have children under the age of 23 living in the same address.

Leprosy Assistance: Payable to any head of household, who suffers from Leprosy or Hansens Disease, or who has a member in his/her household suffering from one of these diseases.

Marriage Grant: A one-time payment payable upon marriage to persons ordinarily resident in Malta. To be eligible a person must be employed, self-employed or self-occupied for at least six months at any time prior to his marriage.

Maternity Benefit: Payable to locally residing pregnant citizens of Malta in respect of the last 8 weeks of pregnancy and the first 6 weeks after childbirth. This benefit is only payable if the female is not entitled to maternity leave from her employer, if employed.

Milk Grant: A head of household who is in receipt of Social or Tuberculosis Assistance may be entitled to Milk Grant.

Non-Contributory Bonus is payable to all persons receiving a pension, orphans' allowance / supplementary allowance, Social Assistance and Leprosy Assistance under the Social Security Act.

Orphans' Allowance: A weekly allowance paid to a guardian of a child or children who are under 16 years of age.

Re-marriage Grant: Payable to a widow who remarries and hence forfeits her right to a widow's pension. The payment is equivalent to one year's widows' pension.

Sickness Assistance: A person becomes entitled to if s/he proves to the satisfaction of the Director of Social Security that s/he or any member of his/her household is suffering from a disease that could only be cured or alleviated by a special diet or regimen, which incurs an exceptional expenditure.

Sickness Benefit: Entitlement of 156 days but may, in certain cases, be extended to 312 days. The first three days of each new claim for this benefit are not paid.

Social Assistance: Given to head of households, who are incapable of work due to medical reasons, or are unemployed and seeking employment, given that they fulfill the means and capital resources tests.

Social Assistance Board: If the head of household, for some reason, is struck off from Part 1 of the ETC register and is registering under Part 2, the partner may apply for social assistance. A Social Assistance Board will review such claims.

Social Assistance for Carers: Given to a single or widowed male/female, whether registered or not as an unemployed person, and who is solely taking care of a sick or elderly relative on a full-time basis.

Social Assistance for Single Parents: Given to a single parent, who does not earn more than a certain amount of income, and who may be eligible for Social Assistance. His/her total income earned together with the Social Assistance entitlement for 2 persons does not exceed the National Minimum Wage.

Special Unemployment Benefit: As is the case for the Unemployment Benefit (described below), entitlement is also for 156 days but at a higher rate. This benefit is applicable to persons who would qualify for non-contributory Social Assistance.

Subsidiary Unemployment Assistance: Unemployment assistance paid to registered immigrants.

Supplementary Allowance: Payable to households where the total income of the members falls below the limits outlined by the Social Security Act.

Unemployment Assistance: Heads of household, who are registering under Part 1 of the Unemployment Register and are thus actively seeking employment may be entitled to Unemployment Assistance after the period for the Unemployment Benefit has elapsed.

Unemployment Assistance Tapering: Unemployed single persons who commence employment, and earn at least the national minimum wage, will continue to receive 65% of their unemployment benefits in the first year of employment. The rate will be further reduced to 45% in the second year and to 25% in the third year. After three years of employment, the assistance will stop being paid.

Unemployment Benefit: Payable to unemployed persons for a period of 156 days. This benefit is considered as a short-term benefit. Subsequently unemployed persons may qualify for long-term benefits under 'Social Assistance'.

Tuberculosis Assistance: Given to any head of household who proves to the satisfaction of the Director of Social Security that s/he or a member of his/her household suffers from Tuberculosis or Koch's Disease.

PENSIONS

The purpose of pensions is to guarantee all citizens a certain level of income in connection with old age, disability, early retirement from the labour market or loss of provider. The various types of pensions available in Malta are listed hereunder:

Carers Pension: Payable to a person who is either single or a widow and who all by her/himself and on full-time basis, takes care of a sick relative who is bedridden or confined to a wheel-chair in the same household. Relatives referred to in this section can be the parents, grandparents, brothers, sisters, uncles, aunts, brothers or sisters-in-law and fathers/mothers-in-law.

Decreased National Minimum Invalidity Pension/Increased Invalidity Pension/National Minimum Invalidity Pension: is payable to persons deemed permanently incapable for full-time or regular part-time employment but are recipients of a service pension.

Decreased National Minimum Pension: Payable to a person who is entitled to a service pension and his service pension together with the rate of retirement pension or increased retirement pension applicable in his/her case is less than the rate of national minimum pension in his/her case. Such a person shall be entitled to the National Minimum Pension reduced by his service pension.

Disability Pension / Severely Disability Pension: A person who is certified, by a Medical Panel appointed by the Minister for Social Policy, as suffering from a severe disability may be entitled to a Disability Pension. Increased Retirement Pension: Applies to cases where the sum total of a person's service pension together with the rate of retirement pension applicable in the case are lower than two-thirds of the person's pensionable income.

Injury Pension: Payable if injury or disease caused or contracted while at work is considered to cause a loss of physical or mental faculty calculated between 20 and 89 per cent. Rates awarded vary according to the degree of disability. Where the degree of disablement is assessed at 90 per cent and over, the person concerned is automatically awarded an Invalidity Pension at the full rate.

Invalidity Pension: Payable to persons deemed permanently incapable for suitable full-time or regular part-time employment. There are various rates according to different conditions.

National Minimum Pension/Increased National Minimum Pension: Payable to a person who is not in receipt of a Service pension from an employer. The rates applicable are four-fifths of the National Minimum Wage in the case of a married man maintaining his wife and two-thirds of the National Minimum Wage in the case of any other person.

Old Age Pension: Payable to citizens of Malta over 60 years of age provided that his/her weekly means fall below the benchmark established by the Social Security Act.

Retirement Pension: Payable on reaching pension age (62 for both males and females). The rates and types of categories vary according to a range of statutory conditions.

Survivors' Pension/Early Survivors Retirement Pension: An earnings-related pension payable to a widow whose husband was entitled to a two-thirds pension or whose husband would have been entitled to a pension had he reached retiring age at the time of his death.

Two-Thirds Pension: A pension related to earnings, payable to persons who have retired after January 1979. This scheme provides for a pension equivalent to two-thirds of the insured person's pensionable income. Maximum and minimum rates are applicable.

In the case of an employed person born on or before 31st December 1951 the pensionable income is calculated by taking the average yearly salary on which the relevant contribution has been paid, of the best *three consecutive calendar years* during the last 10 years prior to retirement. This calculation is further adjusted to cater for cost of living updates. For self-employed persons (a 'self-employed', for social security purposes is that person who is not gainfully employed in a business or profession and mainly lives on income derived from investments/rents) the pensionable income is the average of his/her net income, derived from investments/rents/pensions etc., of the last 10 calendar years or part thereof if the person had not been in self-employment for the whole ten-year period prior to retirement. In the case of a person defined as self-occupied (i.e. a person who derives income from an economic activity and hence declares a net profit/loss) the pensionable income is assessed as the average net income declared from the person's gainful activity during the last 10 years or part thereof as for the case of a self-employed.

The pensionable income is similarly calculated as above for gainfully occupied persons born during the calendar years 1952 to 1955 with the only difference being that the last 11 years prior to retirement are assessed. Meanwhile, the last 12 years are taken into consideration in calculating the pensionable income for gainfully occupied persons born between 1956 and 1958. The last 13 years are assessed for persons born between 1959 and 1961.

The pensionable income for Employed/self-employed/self-occupied persons born from 1961 onwards is equivalent to the yearly average salary (employed) or net income (self-employed/self-occupied) of the best 10 years during the last 40 years prior to retirement.

Widows' Pension/National Minimum Widows' Pension/Pension of Widows with Children: Payable to widows, irrespective of age, who are not gainfully occupied, or who are occupied but earning less than the National Minimum Wage, or who are carrying out gainful activities but have the care and custody of children under 16 years of age. Rates may vary according to conditions outlined in the Social Security Act (Social Security Act, Part IV, and subsequent amendments). Any reference to a widow also means a widower.

SCHEME

The social protection scheme is a unit specifically defined for ESSPROS. A scheme may be defined as a distinct body of rules, supported by one or more institutional units, governing the provision of social benefits and their financing. Typically, schemes are as specific as possible to the risk or need for which protection is provided and the categories of people protected. At the same time schemes are drawn up in such a way as to allow for the computation of an account of receipts and expenditures.

SOCIAL PROTECTION BENEFITS

Social Protection Benefits encompasses all expenditure interventions from public or private bodies intended to relieve households and individuals of the burden of a defined set of risks or needs, provided that there is neither a simultaneous reciprocal nor an individual arrangement involved.

Graphical Illustration of MALTA by NUTS Classification

Statistical Regions and Districts of MALTA

The Nomenclature of Territorial Units for Statistics (NUTS) is a hierarchical classification which divides the economic territory of the European Union for the purpose of producing regional statistics that are comparable across the European Union - NUTS 1 to 3 levels. To meet the demand for statistics at a local level, Eurostat has created a system of Local Administrative Units (LAUs) that is compatible with NUTS.

NUTS 1	MALTA
NUTS 2	MALTA
NUTS 3	Malta Region Gozo and Comino Region
LAU 1	LAU 2
Southern Harbour	Cospicua; Fgura; Floriana; Ħal Luqa; Ħaż-Żabbar; Kalkara; Marsa; Paola; Santa Luċija; Senglea; Ħal Tarxien; Valletta; Vittoriosa; Xgħajra.
Northern Harbour	Birkirkara; Gżira; Ħal Qormi; Ħamrun; Msida; Pembroke; San Ġwann; Santa Venera; St Julian's; Swieqi; Ta' Xbiex; Tal-Pietà; Tas-Sliema.
South Eastern	Birżebbuġa; Gudja; Ħal Għaxaq; Ħal Kirkop; Ħal Safi; Marsaskala; Marsaxlokk; Mqabba; Qrendi; Żejtun; Żurrieq.
Western	Ħad-Dingli; Ħal Balzan; Ħal Lija; Ħ'Attard; Ħaż-Żebbuġ; Iklin; Mdina; Mtarfa; Rabat; Siġġiewi.
Northern	Ħal Għargħur; Mellieħa; Mgarr; Mosta; Naxxar; St Paul's Bay.
Gozo and Comino	Fontana; Għajnsielem; Għarb; Għasri; Munxar; Nadur; Qala; San Lawrenz; Ta' Kerċem; Ta' Sannat; Victoria; Xagħra; Xewkija; Żebbuġ.

NUTS divides MALTA into two regions:

1. Malta
2. Gozo and Comino.

LAU 1 divides MALTA into six districts and LAU 2 into 68 localities.
