## **REPRODUCTION OF MATERIAL**

Any table or material published in this Report may be reproduced and published without the Fiji Bureau of Statistics' prior approval. However, the source of information should always be identified and acknowledged in all modes of presentation.

## **PREFACE**

The report provides information on the Wholesale and Retail Trade industry in 2019. Wholesalers and Retailers are in the business of re-selling goods that have been purchased from suppliers. The goods include motor vehicles, motor cycles, machinery, electrical appliances, computers, food, beverages, gas, clothes, footwear, other household items etc.

The important numbers presented are the macroeconomic aggregates such as Gross Output, Intermediate Consumption, Value Added, Compensation of Employees, Consumption of Fixed Capital and Gross Fixed Capital Formation. These aggregates are combined with similar information on other industries to provide an estimate of Gross Domestic Product, which is a measure of our economy's size. The information made available in this report will allow us to work out the industry's contribution to the economy. It also contributes to the inputs of the national accounts system which basically provides a quantitative image of the whole economy.

The information on the wholesale and retail trade industry would be useful to a good number of users, for instance the;

- 1) Economist who needs to analyze the supply and demand of certain goods or services.
- 2) Planner who uses the data to forecast the economy's performance.
- 3) Investor who wishes to have a closer look at the industry.

The cooperation of the businesses who supplied the information presented in this report is hereby acknowledged. The Fiji Bureau of Statistics will continue to seek their support as we need to continually provide reliable statistics for evidence based planning. I would also like to thank the staff who were engaged in the conduct of the survey and the preparation of this report.

Maria Musudroka [Ms]  
**Acting Chief Executive**

# **1 INTRODUCTION**

## **1.1 History of Surveys Undertaken**

This report contains the results of the survey carried out for the 2019 Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles (refer 2.2 on Coverage and Scope) together with other relevant information on the industry.

A brief description of previous studies done on this industry is given below in chronological order.

### **1970: Census of Distribution and Services**

This was Fiji's first ever Census of Distribution and Services to be conducted and apart from the wholesale and the retail sector was inclusive of the Restaurant and Hotel and the Services sectors. The purpose of conducting this survey was to obtain information on the wholesale, retail and the services activities taking place in Fiji, for which there was hitherto very little official information available to the public.

### **1976: Census of Distribution and Services**

This was Fiji's second Census of Distribution and Services to be conducted and, was apart from the wholesale and the retail sector, inclusive of services sectors. The purpose of conducting this survey was to obtain information on the wholesale, retail and the services activities taking place in Fiji, for the computation of national income and product statistics.

### **1984: Census of Distributive Trade and Services**

A third study on the sector was done in 1984 and this, apart from the wholesale and the retail sector, included restaurant and services sectors. The purpose of conducting this survey was to obtain information for the computation of national income and product statistics as well as to throw light on the progress the wholesale, retail and the services activities taking place in Fiji had made since 1976.

### **1995: Census of Distributive Trade**

The 1995 survey covered the wholesale and the retail trade activities and was conducted primarily to enable determine the benchmark levels for the wholesale and retail sector in the rebasing of the constant price GDP from 1989 to 1995 and also to incorporate changes in the compilation of the data on the sector as recommended in the 1993 System of National Accounts.

### **2002: Wholesale and Retail trade; Repair of Motor Vehicles, Motor Cycles and Personal and Household Goods**

The 2002 survey covered the wholesale and the retail trade activities as well as the repair of motor vehicles, motor cycles and personal and household goods. It was conducted primarily to enable determine the benchmark levels for the sector in the rebasing of the constant price GDP to a more recent year and also to compile the data using the new industrial activity classification, FSIC 2004. As a consequence the name of the survey changed to Wholesale and

Retail Trade; Repair of Motor Vehicles, Motor Cycles and Personal and Household Goods, which is the title of the Tabulation Category G of FSIC 2004, which is based on the International Standard Industrial Classification Rev 3.

### **2011: Wholesale and Retail trade; Repair of Motor Vehicles and Motor Cycles**

The 2011 survey covered the wholesale and the retail trade activities as well as the repair of motor vehicles and motor cycles. It was conducted primarily to determine the benchmark levels for the sector in the rebasing of the constant price GDP to a more recent year and also to compile the data using the new industrial activity classification, FSIC 2010. As a consequence the name of the survey changed to Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles, which is based on the International Standard Industrial Classification Rev 4.

Apart from the ad hoc surveys that are exhaustive surveys, a sample survey on the wholesale and retail trade activity is carried out annually by the FBoS since 1980.

## **1.2 Need for Statistics Relating to Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles**

Wholesale and retail trade; repair of motor vehicles and motor cycles activities account for a substantial proportion of the total economic activity, whether in terms of the industry to the GDP or in terms of its share of total employment and GFCF. These activities are widely scattered in the country and the economic function they perform in channelling the flow of goods from the producer to the consumer is of great importance.

Statistics on wholesale and retail trade; repair of motor vehicles and motor cycles are therefore needed for the preparation of national accounts so that a meaningful study of the whole economy can be made. The data can also be used to construct the input-output table that shows the inter-connection of the wholesale and retail trade; repair of motor vehicles and motor cycles industry with other industries. Policy makers too require the data for formulating sound economic and social policies that augment capital formation. In addition, the establishments engaged in the Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles industry find the data useful.

## **2 METHODOLOGY**

### **2.1 Legal Basis**

The survey was conducted under the provisions of the Statistics Act (Cap 71). This Act protects the confidentiality of the information submitted by the establishments and stipulates the completion of the questionnaire as well.

### **2.2 Coverage and Scope**

The 2019 survey covered all establishments in the Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles industry defined by the FSIC 2010 Section G. The businesses in this category engage in the repair of motor vehicles and motor cycles and the sale without transformation of new and used goods (refer to FSIC 2010 for more details).

### **2.3 Statistical Unit**

The unit of reporting was the establishment (refer Appendix I on Concepts and Definitions).

### **2.4 The Frame**

The frame utilised to survey the establishments engaged in the Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles industry in 2019 was the list of establishments maintained by the FBoS. This list is known as the Business Register (BR), which is kept updated on the basis of information supplied to the FBoS by the Fiji Revenue and Customs Service, Fiji National Provident Fund, Registrar of Companies and the City and Town Councils.

### **2.5 Questionnaire Design**

A common questionnaire was used for surveying the wholesale and retail trade; repair of motor vehicles and motor cycles. It called for information on the particulars of the establishment e.g. type of organisation, income, expenditure, stocks, assets, liabilities and employment (refer to Sample Questionnaire attached as Appendix IV).

### **2.6 Data Collection and Survey Procedures**

The questionnaires were posted on 30<sup>th</sup> June, 2020 and replies were required within a month. Response by the due date was low; therefore personal visits to obtain the questionnaires were made to those establishments that did not respond in spite of the reminders and to those establishments that required assistance in filling out the questionnaires.

Once the questionnaires were received in the office, scrutiny and editing of data contained in them followed. Errors and omissions if found, called for more correspondence, telephone calls or personal visits in an attempt to obtain complete and correctly filled up returns, which were then placed in files sorted by activity and passed on for data entry.

On completion of data entry, tables were run, data edited and analysed and reports written.

### **2.7 Data Processing**

Data was processed by FBoS' Economic Statistics Division using Microsoft Excel.

### **2.8 Reference Period**

The establishments contacted were to submit details for the calendar year 2019. Where the accounting year differed from the calendar year, establishments were asked to provide information for the accounting year that covered the major part of the calendar year 2019.

### **2.9 Non-responding Establishments**

Establishments that did not respond to the survey and establishments that operated during the whole or part of the survey reference period but became untraceable during the survey enumeration period due to closure or removal, were taken as non-respondents. To account for the operations of the non-responding establishments and establishments not covered in the

survey, data were rated-up. In 2019, there were 2,120 establishment respondents compared to 1,442 establishment's respondents in 2018.

## 2.10 Rate-up Factors

Data of non-responding establishments and establishments not covered in the survey were calculated using rate-up factors.

The rate-up factors were derived by first sorting out establishments into types of business and then grouping these establishments into “number of persons engaged” size groups of 1-3; 4-9; 10-19; 20-49; 50-99; and 100+. Using number of persons engaged in each of this group, simple arithmetic means of Value Added were obtained. These arithmetic means were then multiplied by number of persons engaged in each of the non-responding group to estimate their data. The estimated figures for the non-responding units were then added to the figures of the of the responding units to arrive at the estimated data of the entire wholesale and retail trade; repair of motor vehicles and motor cycles.

The GFCF too has been estimated for non-response. Generally capital formation in small establishments, like the ones who do not respond in our inquiry, are low.

Empirically,

$$\hat{G}_{(i)} = \frac{\sum_{i=1}^6 \sum_{j=1}^k g_{ij}}{\sum_{i=1}^6 \sum_{j=1}^k n_{ij}} \left( \sum_{i=1}^6 \sum_{j=1}^k n_{ij} + \sum_{i=1}^6 \sum_{j=k+1}^s n_{ij} \right)$$

Let  $n_{ij}$  be the number of employees in group  $i$  of the  $j$  establishment of those sampled and let  $g_{ij}$  be its corresponding parameter;  $i = 1$  to  $6$ ;  $j = 1$  to  $s$ , where  $s$  is all sample. Then estimate,

where  $k$  = number responded

$l$  = number not responded (which is  $s-k$ )

### 3 RESULTS

All data contained in this report are in Fiji Dollars and in current prices.

All tables in this report contain data inclusive of estimates for non-response; exceptions are tables 1A, 2 to 5B, 8 and 9 that contain as per survey data.

Results of some sub-classes have been grouped together in order to protect the confidentiality of the information supplied by them.

## APPENDIX I: CONCEPTS AND DEFINITIONS

All concepts and definitions used in this report are based upon the recommendations of the United Nations for their world programme of Wholesale and Retail Trade; Repair of Motor Vehicles and Motor Cycles [contained in the International Recommendations on Statistics of the Distributive Trades and Services] as far as has been possible. The major concepts and definitions and their treatment are briefly explained below.

<b><i>Compensation of Employees</i></b>	Includes payments, whether in cash or in kind, made by the employer during the inquiry period for the work done to all persons included in the count of employees. It includes all cash payments, commissions, bonuses, cost of living allowances and wages paid during periods of vacation and sick leave, contributions in respect of their employees social security and pension and payments in kind.
<b><i>Consumption of Fixed Capital</i></b>	In theory this is the value of the current replacement cost of fixed assets used up during the accounting period as a result of normal wear and tear. The consumption of fixed capital shown in this report is derived from the information supplied by the firm. This is expected to conform largely to the requirements of Income Tax Act and no adjustment is attempted to bring this into conformity with the national accounts definition.
<b><i>Employment Size Group</i></b>	This includes paid employment as well as people engaged.
<b><i>Establishment</i></b>	An Establishment can be referred to as an enterprise that engages in one or predominantly one kind of economic activity, at or from one location, for which data are available or can be meaningfully compiled, that allow the calculation of the operating surplus.
<b><i>Fixed Assets</i></b>	Fixed assets include the value of all physical assets expected to have a productive life of more than one year and intended for use by the establishment. Included are major additions, alterations and improvements to existing fixed assets that extend their normal economic life or raise their productivity.
<b><i>Foreign Owned</i></b>	Subsidiary of an overseas company is always considered foreign owned, whereas a branch of an overseas company is only considered foreign owned if 51 percent or more of its equity is held abroad.
<b><i>Gross Fixed Capital Formation</i></b>	This is the outlay on new and second-hand durable goods less their sales plus their own account capital construction work done on similar goods.
<b><i>Gross Output</i></b>	This is the gross value of all goods and services produced during the accounting period, the value of capital construction for own account and other income.

<b><i>Intermediate Consumption</i></b>	Intermediate consumption consists of non-durable goods and services which have a lifetime of use of less than one year. Compensation of employees do not form part of intermediate consumption, but expenditure such as travelling expenses of management personnel are included. Intermediate consumption differs from total purchases of raw materials, fuels etc. by the amount of stock changes of such goods. Valuation of intermediate consumption is at purchasers' value i.e. it is inclusive of all costs incurred by producers in the acquisition of the required goods and services.
<b><i>Local Owned</i></b>	All companies with 51 percent or more of its equity held in Fiji are considered locally owned.
<b><i>Number of Employees</i></b>	This includes all persons who work in the establishment and receive regular pay and persons working away from the establishment when paid by and under the control of the establishment. Also included are salaried managers, and directors of incorporated businesses except when paid solely for their attendance at board of directors meetings.
<b><i>Operating Surplus</i></b>	This is the excess of value added by producers over compensation of employees, consumption of fixed capital and net indirect taxes.
<b><i>Payments in kind</i></b>	This is defined as the net cost to the employer of those goods and services furnished to employees free of charge or at markedly reduced cost that are clearly and primarily of benefit to the employees as consumers. The item includes food, beverages, clothing (except uniforms for civilians as these are not worn off-duty) and lodging etc.
<b><i>Statistical Unit</i></b>	Statistical unit is the Unit for which information is collected.
<b><i>Unpaid Family Workers</i></b>	Unpaid family workers are persons living in the household of any of the proprietors of the owning establishment and working in the establishment without regular pay for at least one third of the working time normal to the establishment.
<b><i>Value Added</i></b>	Value added is the difference between the gross output and the intermediate consumption. It provides a useful way of measuring without duplication the economic importance of an industry or industrial sector.
<b><i>Working Proprietors</i></b>	Working proprietors are owners of establishments who are actively engaged in the work of the establishment. Excluded are silent or inactive partners.

Please correct any error appearing in this label.

Dear Sir/Madam,

Enclosed is a copy of the 2019 Census of Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles questionnaire.

**COVERAGE AND SCOPE:** It covers establishments engaged in the Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles sector classified under the 2010 Fiji Standard Industrial Classification (refer notes on pages 2). If an establishment's activities are combined with other types of business, please report on the Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles side of the operations only.

**PURPOSE:** The census provides an important means of understanding the composition and structure of the industry and assessing the contribution of this sector to the economy. The results of the Census will be used by the Fiji Bureau of Statistics in the estimation of the National Income of Fiji and in the provision of other key indicators.

**REFERENCE PERIOD:** Reference period is the calendar year 2019. If your accounting year is different provide information approximating closest to the calendar year 2019. Limited liability companies are requested to submit a copy of their financial statements with the questionnaire.

**COMPULSORY REQUIREMENT:** The census is conducted under the provisions of the Statistics Act 1961 (Cap 71). In accordance with Section 8 subsection 2 of this Act you are required to fill the questionnaire and return it to the undersigned on or before **30/07/20**. Failure to meet this deadline could result in legal action without further notice.

**CONFIDENTIALITY OF INFORMATION:** Information supplied will be used by the department for the preparation of statistics. Only authorised personnel have access to individual information and any release of information will be in accordance with the Statistics Act

**CONTACT PERSON FOR HELP AND ADVICE:** Mr. Sahib on e-mail [asahib@statsfiji.gov.fj](mailto:asahib@statsfiji.gov.fj) or telephone 331 5822 (ext. 386 244) or direct line 323 0844.

Kemueli Naiqama [Mr]  
Chief Executive

**NOTE:** Under the 2010 Fiji Standard Industrial Classification, Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles includes all units mainly engaged in wholesale and retail Trade; repair of motor vehicles and motorcycles.

- The wholesale trade includes the sale without transformation of new and used goods to the retailers; to industrial, commercial, institutional or professional users; or to other wholesalers; or acting as agents in buying merchandise for or selling merchandise to, such persons or companies. The principal types of business included are merchant wholesalers, i.e. wholesalers who take title to the goods they sell, such as wholesale merchants, industrial distributors, exporters, importers and co-operative buying associations; sales branches and sales offices which are maintained by manufacturing enterprises for the purpose of marketing their products.
- The retail trade includes sale without transformation of new and used goods to the general public, for personal or household consumption and utilisation by shops, departmental stores, stalls, gasoline filling stations, retail motor vehicle dealers, hawkers and peddlers, consumer co-operatives, auction houses etc. Most retailers take title to the goods they sell, but some act as agents for the principal and sell either on consignment or on a commission basis.

This return is required for the addressed establishment only. In case this is not possible, a combined return with similar main activities may be submitted. If the information cannot be provided on this basis, please provide an explanatory note.
